Application: R22-6827598678

Eligibility check

Incomplete

You must not begin a Research Fund application if you are unable to meet all of the following criteria.

No Responses Selected

Personal Information Form

Incomplete

Personal information form

The information provided in this form is for administration purposes only and will not be used to assess your application.

About you

Your position/job title should be the one you hold at the time of your application. If you are expecting a change to your job title that will affect your application, please give details in relevant question in the main application form.

Salutation	(No response)
First name	(No response)
Surname	(No response)
Name of employer/affiliation	(No response)
Country	(No response)
Position/job title	(No response)

Your RSC membership number

You must include a valid RSC membership number here. If you are currently applying for membership, you can enter your application number.

IMPORTANT: Your application will only be eligible if you have been admitted as a member (AMRSC or greater) by the grant application deadline. If your membership application is still being processed at that time, then your grant application will not be eligible. Membership applications can take up to 2 months to process and approve. If you have any questions, please contact our [Membership team](#).

(No response)

Are you carrying out research under supervision?

(No response)

Are you applying with a co-applicant

The main applicant (detailed in "About you") will act as the primary contact for this application.

Please note that if you are applying with a co-applicant, you will also asked to provide their RSC membership number and CV

Research area

Please select the research area(s) most appropriate to your project. We use this to manage your application and will not affect the outcome of your application. Please select all that apply.

No Responses Selected

Keywords

Please provide up to 5 keywords that best describe your project. We use this to manage your application and will not affect the outcome of your application.

Keyword 1	(No response)
Keyword 2	(No response)
Keyword 3	(No response)
Keyword 4	(No response)
Keyword 5	(No response)

Does the project in your application involve the use of live animals, animal tissue, human participants or human tissue?

If "yes", we will contact you for more information. Before any grant is given, you must have all necessary ethical approvals in place for your project.

(No response)

How did you hear about the Research Fund?

Please select all that apply

Declaration for the applicant

Please tick this box to acknowledge that:

- You have read, understood and accept the Research Fund terms & conditions.
- You have read, understood and accept our terms of use.
- We need to collect and manage your personal data in order to provide this service. Our privacy statement explains how we do this.

If awarded a Research Fund grant, you also agree to provide a full report and a detailed statement of expenditure upon completion of your project. You must only use the funds for your personal research as indicated in this application.

Your application form

Applicant details

()

Have you (or your co-applicant) applied to the Research Fund before?

(No response)

Title of proposed research

(No response)

Case for support

This grant prioritises researchers with limited access to funds. You must therefore demonstrate how a Research Fund grant is needed to carry out your project. You should provide details of your existing sources of funding (such as fellowships, research grants and other grants similar to the Research Fund) and why you are seeking support from the Research Fund on top of these other sources.

Current Research Enablement Grant holders may not apply for a Research Fund to support the same project. If, as a Research Enablement Grant holder, you apply to the Research Fund for a different project, reviewers will consider the application in the context of your current Research Enablement Grant.

(No response)

How will this research project benefit the careers of you (and your co-applicant, if relevant)?

Please be specific about any future opportunities that the completion of this project will lead to (for example, larger pieces of work, additional funding applications, opportunities for collaborations or promotions).

(No response)

Proposed expenditure

In the categories, please provide details of your proposed expenditure in GBP should you be awarded a grant. You should provide details of individual expenditure including, where possible, expected costs. For consumables costs, you do not need to list every item. These can be grouped in a way that clearly relates to your project proposal.

Please see our Terms & Conditions for further details on costs that can/can't be covered with a Research Fund.

	Amount (£)	Details (please provide full justifications for the amounts requested)
Consumables/equipment		
Software licences		
Equipment access		
Equipment repairs not covered by University funds		
Other		
Total	0	

Other expenses

If you have additional expenses necessary for your project, but which are not covered in the table above, please provide details here and explain how you will cover these costs. (Please write "N/A" if this does not apply to you)

(No response)

Upload your CV

Incomplete

This should include information about:

1. your current and previous employment,
2. education and qualifications,
3. previous funds and awards,
4. current grant income,
5. up to **five** of your publications that are relevant to your project (you must explain why you have chosen these specific publications),
6. **The entire document must not exceed one page of A4 using size 10 (Arial) font and must be in PDF, DOC or DOCX formats. Your application will be rejected without review if your CV exceeds one page.**

Upload your co-applicant's CV

Completed - 18 May 2023 - Hidden from applicant

This should include information about:

1. your current and previous employment,
2. education and qualifications,
3. previous funds and awards,
4. current grant income,
5. up to **five** of your publications that are relevant to your project (you must explain why you have chosen these specific publications),
6. **The entire document must not exceed one page of A4 using size 10 (Arial) font and must be in PDF, DOC or DOCX formats. Your application will be rejected without review if your CV exceeds one page.**

Upload details of research project

Incomplete

Please upload a document of maximum two sides of A4 (at font size 10) on the details of your proposed research project. Please ensure that you provide the following information:

- **Context of the work**. This should detail the current state of research in the area of your project and describe what your project hopes to build on.
- **Hypotheses and objectives**. What specifically do you want to achieve with this project? How will you build on work that has come before it? What are the anticipated impacts of your work.
- **Methodology**. Please provide a specific description of what you intend to do and how you plan to achieve this within a year.
- **Outcomes**. What are the expected outcomes and goals of your project and what are the future directions you might seek to take.

Your application will be rejected without review if your project proposal exceeds two pages. The page limit applies to the entire document, including any titles, figures, tables, references and appendices.

Obtain your scientific reference

Incomplete

You must obtain a scientific reference as part of your application. Your referee will be asked to comment on the scientific quality of your application and should be working in a similar field of research to yourself. They will be asked to comment on:

- How this work fits in the wider context of the field;
- The novelty/impact of this work in its field of research;
- How reasonable the project is given the resources available to the applicant;
- Are the expenses listed in the application appropriate and essential for the project?

Please note they will not be asked to comment on you as a researcher.

Please consider the availability of your chosen referees; you must provide all necessary reports/approvals by the application deadline in order to submit your application. We recommend giving referees at least two weeks to complete their report.

Please note that your Head of Department cannot act as your scientific referee. Your scientific referee also cannot be someone who is closely related to you (e.g. spouse or sibling) or another active applicant.

Recommenders

Head of Department approval

Incomplete

Please provide details of your Head of Department, who will confirm their support for your application.

Recommenders

Incomplete

Final check before submission

Please ensure that your application meets the following conditions before you submit. You will not be able to make amendments after you have submitted your application.

Your application *will* be rejected immediately if it does not strictly meet any of the following conditions.

Please confirm that:
