

The Chemical Society

Specialist Periodical Reports

A series of reviews by leading specialists in their fields which gives systematic and comprehensive coverage of the progress in major areas of research. Titles of interest to physical chemists include:

Molecular Spectroscopy Vol. 2

Senior Reporters: Professor D. A. LONG
Professor D. J. MILLEN and Dr. R. F. BARROW

"The Senior Reporters are to be congratulated on a very successful first volume."—*N. Sheppard, Chemistry and Industry, 592pp*

Electron Spin Resonance Vol. 2

Senior Reporter: Prof. R. O. C. NORMAN

"It can be recommended highly to anyone with an interest in ESR." *Journal of Magnetic Resonance, reviewing Vol. 1, 300pp*

Theoretical Chemistry Vol. 1 — Quantum Chemistry

Senior Reporter: Prof. R. N. DIXON
University of Bristol

The first volume in this new biennial series deals with quantum chemistry and succeeding volumes will cover other aspects. *170pp*

Statistical Mechanics Vol. 1

Senior Reporter: Dr. K. SINGER

The first volume in this biennial series reviews some of the important recent advances in the field up to July 1972. *270pp*

Reaction Kinetics Vol. 1

Senior Reporter: Prof. R. N. DIXON

The first volume in a new series of biennial reports which covers the recent literature on the subject up to December 1973. *408pp*

Nuclear Magnetic Resonance Vol. 3

Senior Reporter: Dr. R. K. HARRIS

"Undoubtedly this book will be essential equipment for any practitioner who wishes to keep informed on his subject."—*J. C. Robb, Endeavour, reviewing Vol. 1, 454pp*

Colloid Science Vol. 1

Senior Reporter: Prof. D. H. EVERETT

The first volume in this new annual series covers a wide range of topics in the field from late 1969 to the end of 1971. *270pp*

Chemical Thermodynamics Vol. 1

Senior Reporter: Prof. M. L. McGLASHAN

This volume provides a critical review of recent progress up to December 1971. *370pp*

Surface and Defect Properties of Solids Vol. 3

Senior Reporters: Prof. M. W. ROBERTS
and Prof. J. M. THOMAS

This wide-ranging annual review provides critical coverage of selected topics in each volume. *208pp*

Electrochemistry Vol. 4

Senior Reporter: Prof. H. R. THIRSK

"The volume is surely mandatory reading for all electrochemists."—*Journal of Molecular Structure, reviewing Vol. 1, 356pp*
