

# *Foreword*

---

Volume 1 of these Specialist Periodical Reports covered the two-year period 1976 and 1977, and this second volume covers the years 1978 and 1979. The topics included are the same as in the earlier volume except that the chapter on Marine Aliphatic Natural Products has been omitted because of unforeseen difficulties which arose when it was too late to make other arrangements. I thank the Reporters for their contributions.
