## Introduction Polymers and Fire

*T.R. Hull and A.A. Stec*

1	Hazards from Fire	1
2	Fires and Fire Growth	2
2.1	Conditions of Each Fire Stage	5
2.2	Chemical and Physical Processes	6
2.3	Studying Polymer Decomposition	7
3	Fire Effluent Toxicity	8
4	Structural Deformation	9
5	Fire Retardant Strategies	9
5.1	Physical Action	10
5.2	Chemical Action	10
5.2	Polymer Nanocomposites	11
6	Conclusions	12
	References	14

## Fire Retardant Strategies

### Chapter 1 Synergy between Nanometric Alumina and Organoclay in Conventional Fire Retardant Systems for Ethylene–Vinyl Acetate

*N. Cinausero, J.-M. Lopez-Cuesta, F. Laoutid,  
A. Piechaczyk and E. Leroy*

1.1	Introduction	17
1.2	Experimental	18
1.2.1	Materials	18
1.2.2	Processing	18
1.2.3	Testing	18
