

Fullerenes  
Principles and Applications

## **RSC Nanoscience & Nanotechnology**

Series Editors

Paul O' Brien, *University of Manchester, UK*

Sir Harry Kroto FRS, *University of Sussex, UK*

Harold Craighead, *Cornell University, USA*

This series will cover the wide-ranging areas of Nanoscience and Nanotechnology. In particular, the series will provide a comprehensive source of information on research associated with nanostructured materials and miniaturised lab on chip technologies.

Topics covered will include the characterisation, performance and properties of materials and technologies associated with miniaturised lab on chip systems. The books will also focus on potential applications and future developments of the materials and devices discussed.

Ideal as an accessible reference and guide to investigations at the interface of chemistry with subjects such as materials science, engineering, biology, physics and electronics for professionals and researchers in academia and industry.

Titles in the Series:

### **Nanotubes and Nanowires**

C.N.R. Rao FRS and A. Govindaraj, *Jawaharlal Nehru Centre for Advanced Scientific Research, Bangalore, India*

### **Fullerenes: Principles and Applications**

F. Langa, *Faculty of Environmental Science, University of Castilla La Mancha, Toledo, Spain*, Jean-Francois Nierengarten, *Laboratory of Coordination Chemistry, CNRS, Toulouse, France*
