Environmental Issues

- An Overview of the Harmonised Mandatory Control System 3
L. R. Henriquez
- Impact of the OSPAR Decision on the Harmonised Mandatory Control System
on the Offshore Chemical Supply Industry 21
M. Thatcher and G. Payne
- The Development and Introduction of Chemical Hazard Assessment and Risk
Management (CHARM) into the Regulation of Offshore Chemicals in the
OSPAR Convention Area; A Good Example of Government/Industry
Co-operation or a Warning to Industry for the Future? 31
I. Still
- Bioaccumulation Potential of Surfactants: A Review 44
P. McWilliams and G. Payne
- Alkylphenol Based Demulsifier Resins and their Continued Use in the
Offshore Oil and Gas Industry 56
P. Jacques, I. Martin, C. Newbigging and T. Wardell

New Technology

- Use of Enzymes for the In-Situ Generation of Well Treatment Chemicals 67
I. D. McKay and R. E. Harris
- Electrically Conductive Oil-based Mud 83
M. A. Tehrani, C. A. Sawdon and S. J. M. Levey
- The Use of Surfactants to Generate Viscoelastic Fluids 96
R. Franklin, M. Hoey and R. Premachandran
- Function and Application of Oilfield Chemistry in Open Hole Sand Control
Completions 107
L. George, L. Morris, S. Daniel, B. Lungwitz, M. E. Brady and P. Fletcher
- Effective Topside Chemical Detection via a Novel Antibody Engineering
Technique 122
K. A. Charlton, G. Strachan, A. J. Porter, S. M. Heath and H. M. Bourne
- Using Electrochemical Pre-treatment for the Protection of Metal Surfaces
from the Formation and Growth of Calcium Carbonate Scale 131
A. P. Morizot, S. Labille, A. Neville and G. M. Graham

Applications

The Challenges Facing Chemical Management: A BP Perspective <i>S. Webster and D. West</i>	143
The Development and Application of Dithiocarbamate (DTC) Chemistries for Use as Flocculants by North Sea Operators <i>P. R. Hart</i>	149
Optimising Oilfield Oxygen Scavengers <i>A. J. McMahon, A. Chalmers and H. Macdonald</i>	163
Enhancing Reliability, Performance and Environmental Acceptability of Subsea Hydraulic Production Control Fluids, a True Chemistry Challenge <i>R. Rowntree and R. Dixon</i>	180
Reservoir Drilling Fluids: An Overview of Current Technology and New Potential Developments <i>D. A. Ballard and C. A. Sawdon</i>	189
A Chemical Packer for Annular Isolation in Horizontal Wells <i>B. Lungwitz, K. S. Chan, R. Rolovic, F. Wang and D. Ward</i>	202
Increased Oil Production from Wet Wells in Sandstone Reservoirs by Modifying the Relative Permeability <i>R. J. R. Cairns</i>	213

Flow Assurance

Life Cycle Management of Scale Control within Subsea Fields and its Impact on Flow Assurance, Gulf of Mexico and the North Sea Basin <i>M. M. Jordan, K. Sjuraether, I. R. Collins, N. D. Feasey and D. Emmons</i>	223
New Methods for the Selection of Asphaltene Inhibitors in the Field <i>H.-J. Oschmann</i>	254
The Development of Advanced Kinetic Hydrate Inhibitors <i>B. Fu</i>	264
Prediction and Solution of Asphaltene Related Problems in the Field <i>S. Asomaning and A. Yen</i>	277
Subject Index	287
