

Contents

A View Towards the Next Century

Recent Advances in Solid-State NMR <i>R. K. Harris</i>	3
Characterisation of Meat Structure by NMR Imaging at High Field <i>J. M. Bonny, W. Laurent and J. P. Renou</i>	17
MRI Indicators for Measuring pH and Redox in Food <i>S. D. Evans and L. D. Hall</i>	22
Rheo-NMR of Carrageenan Gels and Sols <i>P. T. Callaghan and A. M. Gil</i>	29
An Insight into the Structure of Foods Using ^{13}C and ^1H Magic Angle Spinning (MAS) NMR: Application to Wheat Dough <i>A. M. Gil, E. Alberti and D. Santos</i>	43
Hyphenated Methods in NMR <i>M. Spraul, V. Braumann, M. Godejohann and M. Hofmann</i>	54
Relationships between Sensory Texture of Soft Cheese and MRI Measurements <i>F. Mariette, G. Collewet, P. Fortier and J. M. Soulie</i>	67
Mannitol Production by a Genetically Modified <i>Lactococcus Lactis</i> Strain Studied by ^{13}C NMR <i>In Situ</i> <i>A. R. Neves, A. Ramos and H. Santos</i>	75

Food Safety and Health

MRI of Gastric Function <i>P. A. Gowland, L. Marciani, A. Fillery-Travis and R. C. Spiller</i>	85
Detection of Free Radicals in γ -Irradiated Soybean Paste by Electron Spin Resonance Spectroscopy <i>E. J. Lee, V. I. Volkov and C. H. Lee</i>	98
Suppression Effects of Spice Plants on Free Radical Formation <i>B. L. Milic, S. M. Djilas and N. B. Milic</i>	105

NMR Studies on the Antiradical Mechanism of Phenolic Compounds Towards 2,2-Diphenyl-1-picrylhydrazyl Radical <i>A. M. S. Silva, C. M. M. Santos, J. A. S. Cavaleiro, H. R. Tavares, F. Borges and F. A. M. Silva</i>	110
Natural Antioxidants and Free Radicals – an ESR Perspective <i>C. Chen, H.-R. Tang and P. S. Belton</i>	117
Oleuropein Biomimetic Conformations by Magnetic Resonance Experiments and Molecular Mechanics and Dynamics <i>F. Capozzi, M. A. Cremonini, N. Russo, E. Tocci and N. Uccella</i>	129
Isolation and <i>trans</i> -Resveratrol Analysis in Brazilian Red Wine by ¹ H Nuclear Magnetic Resonance <i>M. Maraschin, R. Passos, J. M. O. Duarte da Silva, P. F. Dias, P. S. Araujo, A. C. Oltramari, J. D. Fontana and M. S. B. Caro</i>	136
Structure and Dynamics	
Fast Field Cycling NMR – Applications to Food <i>P. S. Belton and Y. Wang</i>	145
Starch Granules – A Multinuclear Magnetic Resonance Study <i>H. Tang and B. Hills</i>	155
Restricted Diffusion in the Lecithin-Water System <i>M. M. Doroginiskij and A. V. Filipov</i>	165
Molecular Mobility in Frozen Sugar Solutions <i>D. Martin, S. Ablett and M. Izzard</i>	172
Interpreting Near Infrared Spectra of Solutions by Outer Product Analysis with Time Domain-NMR <i>D. N. Rutledge, A. S. Barros and R. Giangiacomo</i>	179
Interaction of β -Casein at an Emulsion Interface Studied by ² H NMR and Molecular Modeling <i>J. A. G. Areas, M. M. Cassiano, C. Glaubit, G. Groebner and A. Watts</i>	193
Slicing – A Novel Approach for Unique Deconvolution of NMR Relaxation Decays <i>H. T. Pedersen, R. Bro and S. B. Engelsen</i>	202
Analysis, Monitoring and Authentication	
High Resolution NMR of Virgin Olive Oil <i>R. Sacchi</i>	213

Origin Recognition of Wild and Farmed Salmon (Norway and Scotland) Using ^{13}C NMR Spectroscopy in Combination with Pattern Recognition Techniques <i>M. Aursand and D. E. Axelson</i>	227
High Resolution NMR Studies of Meat Composition and Authenticity <i>O. Al-Jowder, F. Casuscelli, M. Defernez, E. K. Kemsley, R. H. Wilson and I. J. Colquhoun</i>	232
Magnetic Resonance Imaging to Classify Loin from Iberian Pig <i>E. Cernadas, T. Antequera, P. G. Rodriguez, M. L. Duran, R. Gallardo and D. Villa</i>	239
Industrial Magnetic Resonance – Food and Other Industries <i>A. De Los Santos, J. D. King and D. C. Stead</i>	246
Magnetic Resonance Imaging as a Tool to Quantify the Adiposity Distribution in Fish <i>G. Collewett, C. Toussaint, A. Davenel, S. Akoka, F. Medale, B. Fauconneau and P. Haffray</i>	252
An NMR Study of the Biochemistry of Mango: The Effects of Ripening, Processing and Microbial Growth <i>I. F. Duarte, I. Delgadillo, M. Spraul, E. Humpfer and A. M. Gil</i>	259
Subject Index	267
