

Preface

It is my pleasure to introduce Volume 33 of the Specialist Periodical Reports on NMR. This volume contains comprehensive coverage of the relevant literature appearing between June 2002 and May 2003. A minor change has occurred in the reporting arrangements for 'NMR of Liquid Crystals and Micellar Solutions' in that this will now be covered annually rather than biennially. Apart from this the pattern of coverage presented is that which has been established over a number of years in this series.

It is a pleasure for me to express my gratitude to all members of the reporting team for both the comprehensive nature of their reports and for delivering them promptly.

G. A. Webb
October 2003
