

The **5th Ibero-American Congress of Entrepreneurship, Energy, Environment and Technology (CIEEMAT)** will be held from 11th to 13th September 2019 at the Polytechnic School of Portalegre (Portugal).

This conference is organised by researchers from the Federal Centre of Technological Education Rio de Janeiro (Brazil), Polytechnic Institute of Bragança (Portugal), Polytechnic Institute of Portalegre (Portugal) and Coruña University (Spain).

The challenges of higher education for the 21st century, such as the centralization of educational procedures in the student, and the sharing of experiences between institutions at the level of international cooperation, double graduation, and cooperation with the community, are also discussion topics in this conference.

All accepted papers will be published in the proceedings of the conference, and the best papers will be suggested for publication in a special edition of an international journal and in international scientific journals.

For more information, please visit the website of the conference: <http://www.cieemat.com>

You can find the instructions for authors on the following link: [http://en.cieemat.com/instrucciones para autores](http://en.cieemat.com/instrucciones_para_autores)

You can submit your work by the **15th of June**, on the following link:
http://en.cieemat.com/abstracts/*/submit_communication/send1

If you have any question related to the conference, please contact us on: info@cieemat.com

The organising committee
