The East Anglia Region of the RSC Analytical Division will host a one day meeting on Process Analytics to be held on Tuesday 18<sup>th</sup> November 2014 at Johnson Matthey Catalysts Conference Centre in Royston, Hertfordshire.

Generating solutions for fast, accurate measurement response is imperative to creating efficient, cost effective, sustainable processes. Process analytics are constantly evolving to suit the needs of both industrial and academic measurement alike. The aim of this meeting is to bring process analytics suppliers and users (industrial and academic) together to learn about and discuss new process measurement solutions, challenges and provide networking opportunities to generate new partnerships.

Note: alterations to this programme as well as Travel directions for getting to Johnson Matthey Catalyst Conference Centre will appear on the 'Process Analytics 2014' events page on the East Anglia Region web site under Forthcoming Events:
