

## Chemistry in the Oil Industry XVII Sustainable Chemistry: Towards Net Zero

1st – 3rd November 2021

### CALL FOR PAPERS

**CITOI XVII will move online for 2021!** We are now accepting papers from all parts of the oil and gas industry (upstream, midstream and downstream) where chemistry is the central theme. The industry is adjusting to “new normals” and addressing energy transition whilst catalysing carbon reduction in all areas including chemical procurement and application. Our collective challenge is to develop the chemical technologies needed to operate a sustainable and climate-driven global industry. To do this safely whilst meeting environmental standards remains paramount. Paper submissions for oral and poster presentation are invited in the following areas:

- Well Technology
- Carbon Recovery & Storage
- Sustainability & Chemistry
- Flow Assurance
- Improved Recovery
- New & Green Chemistry
- Cleaning & Decommissioning
- Integrity Management
- Regulation & Economics

Preference will be given to abstracts which clearly describe chemical functionality and structure. Papers not selected for oral presentation may be selected for poster presentation and published in the proceedings.

**Bursaries may be available**

#### DIARY OF EVENTS

7 May 2021	Submission deadline for abstracts of offered papers and posters. Abstracts up to 450 words in .doc(x) or .pdf format should be sent to <a href="mailto:tricia.francis@rscspecialitychemicals.org.uk">tricia.francis@rscspecialitychemicals.org.uk</a>
End May 2021	Programme will be finalised and speakers notified
2 August 2021	Authors are required to submit full text versions of their papers for committee review
30 September 2021	Authors are required to submit final paper and presentation video for final review

#### SYMPOSIUM ORGANISING COMMITTEE

Richard Bligh-Smith	CITOI Committee Member
Jack Dunlop	JD Vistas Ltd
Harry Frampton	CITOI Committee Member
Kevan Hatchman	Blagden Specialty Chemicals Ltd
Steve Jackson	Baker Hughes
Myles Jordan	ChampionX
Ross MacDonald	Spirit Energy Ltd
Nik Robinson	EOSCA & NIKAM Consulting
Andrew Shepherd	Shell Australia Pty Ltd
Clare Temple-Heald	Consultant

This International Symposium is organised by the Royal Society of Chemistry Speciality Chemicals Interest Group and the European Oilfield Speciality Chemicals Association. Sponsorship opportunities are available.

For more details please contact the CITOI Conference Secretariat
