### THE MANCHESTER 2017 EVENT GRAPHIC:

The silhouette of the Beetham Tower is a 21<sup>st</sup> Century Manchester icon. The 169 m structure has a height to width ratio of 10:1 making it one of the thinnest skyscraper in the world.

---

### THE BRITISH MASS SPECTROMETRY SOCIETY :

The BMSS is a UK registered charity whose purpose is to promote and disseminate knowledge of mass spectrometry and allied subjects for the benefit of the public. The BMSS can trace its origins to before 1965, and is thus one of the world's first Mass Spectrometry societies.
