

## Crossing the great divide? Moving between academia and industry

### Session 1: Keynote

10:30	Registration
11:00	<b>Introduction and welcome</b> Professor Martin Humphries FMedSci, Vice-President and Dean, Faculty of Life Sciences, University of Manchester
11:15	<b>Keynote – my career in industry and academia</b> Professor Ed Bullmore FMedSci, Professor of Psychiatry, University of Cambridge; Vice-President, Experimental Medicine and Head, Clinical Unit Cambridge, GlaxoSmithKline
12:00	<b>Networking</b> <i>Structured networking session designed to facilitate quick introductions between large numbers of attendees.</i>
13:00	Lunch

### Session 2: Options in industry

14:00	<b>Drug development and medical devices panel</b> <i>Short talks from a panel of industry representatives working in drug development and medical devices. Attendees will be encouraged to ask questions about working in those fields – even the most basic questions.</i>
15:00	<b>Innovative industry panel</b> <i>Short talks from a panel of industry representatives working in less obvious areas of industry, such as software development. (Aiming for small, entrepreneurial companies.)</i>

### Session 3: Building your career

16:00	Tea / coffee
16:30	<b>Getting into industry - funding, connections and making the most of opportunities</b> ... And getting out again - overcoming issues regarding flexibility and mobility between sectors <i>3-4 Short talks from people who currently hold industry related fellowships and more senior academics who work between academia and industry followed by group discussions. Attendees will be broken into groups of 6-10 to discuss their particular concerns/questions. Groups will be led by a senior academic/speaker.</i>
18:30	Drinks reception
19:30	Close

The Academy is grateful to the National Institute for Health Research, NHS Education for Scotland, the National Institute for Social Care and Health Research (Wales), Queen's University Belfast and the Wellcome Trust Clinical Veterinary Research Training Award for their support of the Academy's Mentoring and Outreach Scheme.
