The conference seeks to be a forum for the discussion of all aspects of forensic isotope ratio analysis (light, radiogenic and non-traditional). We solicit presentations on the following themes, but topics outside of these themes will be considered:

- ✓ Case studies.
- ✓ Trafficking in exotic animals and animal products.
- ✓ Food sourcing for health, safety and authenticity.
- ✓ Human tissue provenance
- ✓ Physiological studies.
- ✓ Trace element analyses.
- ✓ Contraband materials (counterfeits, narcotics, explosives)
- ✓ Technical innovations.
