

Friday 11 September: Bilkent University

Time	Speaker
9:00	Opening remarks
9:20	Biomimetic Supramolecular Chemistry: from DNA Bases to α-Helices Andrew Wilson <i>University of Leeds, UK</i>
9:50	Conjugated Oligomer and Polymer Nanoparticles for Cellular Imaging, Controlled-Release Drug Delivery and Photonic Applications Donus Tuncel <i>Bilkent University, Turkey</i>
10:20	Tea break
10:40	New Developments in Catalysis for Synthesis Steven Bull <i>University of Bath, UK</i>
11:1	Mechanochemistry for Health and Environment Bilge Baytekin <i>Bilkent University, Turkey</i>
11:40	Lunch with poster session / discussion
13:30	Fluorescent Probes for Bio-Imaging and Polydiacetylene Based Chemosensors Juyoung Yoon <i>Ewha Womans University, South Korea</i>
14:00	Chromophore Excited States – Towards Predictive Theoretical Studies Yavuz Dede <i>Gazi University, Turkey</i>
14:30	Tea break
14:50	Boronic Acids: Recognition, Sensing and Assembly Tony James <i>University of Bath, UK</i>
15:20	Activatable Photosensitizers and Unimolecular Theranostics Engin Akkaya <i>Bilkent University, Turkey</i>
15:50	Open discussion, including future collaboration opportunities under the Newton Fund
16:50	Closing remarks
