

Dial-a-Molecule

An EPSRC Grand Challenge network

Annual Meeting

2 July 2012

Warwick University

Tasked by EPSRC, Dial-a-Molecule has assembled a technological roadmap defining the path towards the vision:

In 20-40 years, scientists will be able to deliver any desired molecule within a timeframe useful to the end-user, using safe, economically viable and sustainable processes.

The annual meeting is your chance to provide feedback and to get involved in the network

Come and

- ✦ Help refine the Dial-a-Molecule roadmap
- ✦ Find out about funding opportunities provided by the network
- ✦ Learn about and get involved in multi-disciplinary projects identified as key to the Grand Challenge
