

6th European Conference

EuCheMS 
European Chemical Sciences
Division of Chemistry in Life Sciences

on Chemistry for Life Sciences

10-12 June 2015

Lisbon, Portugal

Main Topics

- Intrinsically disordered proteins
- Nanobiotechnology and applications
- Imaging
- Epigenetics and medicinal chemistry
- Carbohydrates and vaccines
- Peptides and Protein Chemistry
- Nucleic Acids - folding, structure and functions
- Drug design and protein crystallography
- Membrane proteins and receptors
- *In silico* and molecular modeling
- Biomaterials
- Metabolomics

Invited Speakers

Peter Tompa, Belgium
Cecília Roque, Portugal
Eva Töth, France
Stuart Conway, UK
Claney Pereira, Germany
Ernest Giralt, Spain
Claudia Höbartner, Germany
Andrea Mattevi, Italy
Session co-chaired with
**European Federation
for Medicinal Chemistry**

Abstract Submission Deadline: 15 March 2015

Protein School, FCT-NOVA, 9th June
