# INVITATION to the 26<sup>th</sup> International Symposium on Electroseparation and Liquid Phase-Separation Techniques

## Welcome to the 26<sup>th</sup> international Symposium ITP 2019

*On behalf of the international scientific and organizing committees, it is our great pleasure to invite you to participate and to deliver a communication at the 26<sup>th</sup> International Symposium on Electro- and Liquid Phase-Separation Techniques belonging to the traditional ITP series. ITP 2019 will be organized in Toulouse, France, between September 1<sup>st</sup> and 4<sup>th</sup> at the University of Toulouse, Paul Sabatier.*

*ITP symposium series, inaugurated in Belgium in 1979, is one of the most recognized international meeting addressing the latest issues and innovations in all areas of electro- and liquid phase-separations techniques. The scientific areas of the symposium cover a wide range of technologies based on electro- and liquid phase-separations: capillary and microchip electrophoresis, electrokinetic chromatography, two-dimensional electrophoresis, HPLC, UPLC, Micro- and Nanoscale HPLC, and their hyphenation with MS. Applications of these techniques in (bio)analysis, (bio)pharmaceuticals, life science research, environmental analysis, food safety and authenticity, space science, forensic, toxicology, and (bio)polymers will be emphasized.*

*The ITP Symposium series provide a forum for high-level scientific exchanges between analytically oriented scientists from the whole world in a friendly atmosphere. The University of Toulouse, one of the oldest in Europa, was founded in 1229 and is one of the most famous in France (rank #5 in France according to the Times Higher Education in 2018). It is located in the south of France, where the "art de vivre" is well-known. Medieval city, Renaissance city, Age of Enlightenment city, city of rugby, city of aviation, city hosting 110,000 students and 7,000 researchers, city of the good food and wines. A city where the ITP fellows will remain for a long time.*

*We know that you will enjoy ITP 2019, the cutting edge science at the symposium will undoubtedly benefit from the beauty and culture of Toulouse, South of Fraaaannnce!*

*Sincerely*

Prof. Hervé Cottet  
University of Montpellier  
Co Chair

Prof. François Couderc  
University of Toulouse  
Co Chair

## Confirmed Speakers

### ITP 2019 Topics

Capillary Electrophoresis

Liquid phase separation techniques

Data processing and data analysis

Metabolomics

Bioanalysis / Pharmaceuticals

Multidimensional separations

New advances and fundamentals in separation sciences

Natural and food products

Microscale separations / microchips

Portable Capillary electrophoresis

Coupling with MS

+ Young scientist session

+ AfSep labelled session

## Social Program

Toulouse, with its artistic atmosphere, offers excellent opportunities for scientific, cultural and social experiences in a unique setting. These "toulousaine" experiences will be completed by a **journey to Carcassonne, the worldwide UNESCO famous medieval city**, following the adventures of Kevin Costner, and Mary Elizabeth Mastrantonio, as Robin Hood and Lady Marianne. This journey will contribute to increase friendships between ITP fellows, serving as a Forum for discussions, suitable for setting new scientific collaborations.

## LOCATION

University Paul Sabatier - Toulouse

## KEY DATES

Abstract deadline:	April 15, 2019
Notification:	April 30, 2019
Earlybird deadline:	June 30, 2019
Short courses and Opening session:	September 1, 2019
Symposium:	September 2-4, 2019
Symposium Gala:	September 3, 2019
