23 September 2015, Shanghai, China

6th Unilever-RSC International Symposium on Innovation in Sustainability

Programme

Chair: Professor Xin Yang, *Fudan University*

Co-chair: Professor Lin Wang, *Fudan University*

Time	Event	Session Chair
09:00	Introduction and welcome	
09:15	Sustainable wastewater treatment in China: Challenges, opportunities and emerging technologies Prof Yongmei Li, <i>Tongji University</i>	Prof Xin Yang, <i>Fudan University</i>
09:50	SUSTAINABILITY: Big challenges for science and technology Prof Jim Crilly, <i>Strategic Science Group, Unilever R&D</i>	
10:25	Coffee break	
10:50	Towards a circular economy using green chemistry Prof James Clark, <i>University of York</i>	Warren Zhou, <i>Unilever R&D Shanghai</i>
11:25	Properties of green solvents and their application in green chemistry Prof Buxing Han, <i>Institute of Chemistry, Chinese Academy of Sciences</i>	
12:00	Lunch	

Time	Event	Session Chair
13:00	Poster session	
14:00	Evolution of biomass burning smoke particles in the dark Prof Jianmin Chen, <i>Fudan University</i>	Prof Lin Wang, <i>Fudan University</i>
14:35	Future of wastewater treatment with a focus on hazardous chemicals Prof Elise Cartmell, <i>Cranfield University</i>	
15:10	Coffee break	
15:30	Development of surrogates to predict photochemical fate of PPCPs in effluents Prof Weihua Song, <i>Fudan University</i>	Dr Rick Yuan, <i>Unilever R&D Shanghai</i>
16:05	Speech from one supplier of Unilever Representative, <i>WestRock Company</i>	
16:40	Panel discussion	Dr Mason Wang, <i>Unilever R&D Shanghai</i>
17:40	Closing remarks
