

Working Safely with Nanomaterials

Burlington House, London on Wednesday 9 September 2015

The event will see the launch of the revised guidance 'Working Safely with Nanomaterials' and leading experts and practitioners in nanosafety will provide an update on most recent knowledge, methods and techniques for working safely with nanomaterials in laboratories including:

- Informing sound guidance on safe use of Nanomaterials
- Regulations – European and UK perspective
- Risk assessment, controls and monitoring
- Examples of good practice
- Applications for use of nanomaterials

Who should attend?

Safety professionals, laboratory managers, general managers and those working with nanomaterials in research and development or have an interest in the safe development of nanomaterial based products

The cost of the conference is £100 for RSC members and £120 for non-RSC members. The student and retired RSC member price is £50

Information and Registration can be found at -<http://www.rsc.org/events/detail/18343/working-safely-with-nanomaterials-in-randd-laboratories-an-update>

This conference is supported by the following organisations
