

Root Cause Analysis at the Materials Processing Institute

MPI Materials
Processing
Institute

Excellence in Materials & Process Innovation

Date: Tuesday 12th April 2016

Venue: Materials Processing Institute,
Eston Road, Middlesbrough, TS6 6US

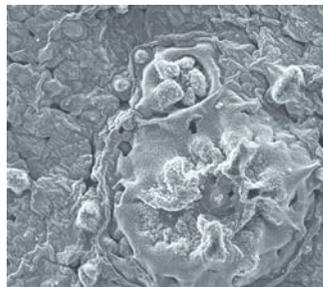

Materials Processing Institute opens its doors to Chemical and Process Industries, to share its capabilities in forensic insight into materials structure, properties and behaviours.

Commercial Director, Gareth Fletcher will present: “Materials Processing Institute – Providing Support for Industry”, then

Guest Speaker, Chris Lakin, a Lean Sigma Master Black Belt of BWC Performance will present: “Root Cause – the value of forensic insight”.

Tour will include:

- *Fluid/Particle Flow Modelling and Imaging Facility,*
- *Metallurgy, Refractories, Ceramics, Glasses, Analytical Laboratories,*
- *Electronic Sensors, Stress/Strain Measurements,*
- *An Operational Steel/Alloys Plant,*
- *Piloting/Upscaling Area.*

Complimentary Networking Buffet at 5.30 pm. First talk starts 6:00 pm.

All welcome – Please contact Adrian Adamson for more information or to register
