31st Symposium on Medicinal Chemistry in Eastern England

Please note new date

Thursday 26th November 2020

A virtual meeting - online only

**RSC INTEREST GROUP
BIOLOGICAL AND MEDICINAL
CHEMISTRY SECTOR**

Synopsis

The Symposium on Medicinal Chemistry in Eastern England, known colloquially as the "Hatfield MedChem" meeting, is a highly successful, long-standing, one-day meeting which runs annually. The scientific program will comprise presentations showcasing medicinal chemistry case studies from tools to candidates, across a range of modalities, therapeutic areas and target classes, as well as covering more general topics from the forefront of drug discovery of relevance to medicinal chemists. The meeting aims to offer excellent scientific opportunities for all those working in medicinal chemistry and drug discovery.

Programme

- 09.00 Welcome and introduction
- 09.05 *PROTACs as biological tools and achieving bioavailability beyond the Rule of Five* - **Daniel O'Donovan**, AstraZeneca
- 09.45 *Safe, effective and versatile devices for photoredox chemistry: light at the end of the tunnel* - **Arran Solomonsz**, Asynt
- 09.50 *Discovery of a novel series of small molecule modulators of TNF α binding and signalling* - **Dan Brookings**, UCB
- 10.30 Refreshment break
- 10.50 *Structure-based drug design of Calcitonin Gene-Related Peptide (CGRP) receptor antagonists* - **Andrew Cansfield**, Sosei Heptares
- 11.30 *Prep HPLC from Teledyne ISCO: taking the hard work out of method development with our new focused gradient generator* - **Lisa Sargeant**, Teledyne ISCO
- 11.35 *The Power of One ... discovery of the first selective and non-covalent small molecule inhibitors of DNMT1* - **Ali Raoof**, Drug Discovery Unit, CRUK Manchester Institute
- 12.00 Lunch
- 12.30 Networking session - meet the speakers
- 13.00 **Capps Green Zomaya Award presentation lecture: Molecular simulation strategies for ensemble-based drug design** - **Julien Michel**, University of Edinburgh
- 13.45 *The challenges of targeting RNA modifying enzymes as drug targets* - **Wesley Blackaby**, Storm Therapeutics
- 14.10 *Building a PROTACs toolbox for contract research* - **Tom Coulter**, Selvita
- 14.15 *Expanding the medicinal chemist's tool box: recent highlights in synthetic chemistry* - **Robert Griffiths**, Charles River
- 14.40 Refreshment break
- 15.00 *Design and synthesis of Janus kinase inhibitors for inhaled delivery and the importance of aldehyde oxidase metabolism in the lung* - **Christopher Wellaway**, GlaxoSmithKline
- 15.40 *Cartridge-based automated synthesis - a new tool for the medicinal chemist* - **Paula Nichols**, Synple Chem
- 15.45 *Key aspects of fragment-based drug discovery and structure-based drug design strategies from the development of PPI clinical compounds* - **Louise Walsh**, Astex
- 16.25 Networking session - meet the speakers
- 16.55 Concluding remarks and close

Registration

Registration is open and fees range from £27 to £75.

Organising Committee

Adrian Hall, UCB (Treasurer)
Nicole Hamblin, Charles River (Chair)
David Hirst, GlaxoSmithKline
