# WELCOME MESSAGE

**Welcome to Nanotechnology and Nanoscience conference 2018...!!!**

- It's a warm welcome to all Nanotechnology Scientists, Academicians, scholars, delegates to have a look on our organization and join us for the Nanotechnology and Nanoscience conference 2018 will be the one of the most intriguing and a great vital learning experience for the people from the nanotechnology domain. Its breath taking technical sessions will leave you spell bound and drenched for complete three days and will make your experience a memorable one. It's a humble effort from our end to bring people from different regions and boundaries to come together and share their vision and knowledge. It embarks the beginning of new connections and networks which will really help all of us for sustainable growth and development. We all look forward for your participation in Nanotechnology and Nanoscience Conference 2018.
- **International Conference on Nanotechnology and Nanoscience Conference 2018 has prepared** a platform for all to have an open discussion with your pal's who share similar thoughts and aspirations like you.
- **CITATIONS INTERNATIONAL** is proud to host research scholars and professional experts to participate in this event. It's our pleasant duty to bid you all a genial welcome to share your valuable innovations and suggestions to the next generations. We aims to bring together front-line experts from multidisciplinary research and application areas to join this conference, to discuss the ongoing Research and Development efforts in the field of Nanotechnology.

# ABOUT US

- Citations International is an open access academic Journal publisher and International Conference organizer. We aim to serve standard researches for their Contribution in Enlightening human souls through their research and making an unparalleled contribution to the society. We exit to provide express turn-around time for reviewing, publishing and dissemination of articles freely for teaching and reference purposes.
- Citations International organizes international Management and Scientific Conferences in the field of academics where researchers are provided with a platform to express and explore their ideas and provide them with perfect platform to make new connections and carve a niche for themselves in their respective domain.
- Our focus to make available scientific research articles in all areas of study easily accessible on the basis of the platform of the open access model of publication. We believe that the open access model is sure to stimulate research all around the world as it readily provides the opportunity of free unrestricted access to excellent research articles to the academia, researchers and interested individuals who seek knowledge and enlightenment.

# ABOUT CONFERENCE

- The conference will be held in **Osaka, Japan from September 28-30**. Citations International brings together leading Academicians, scientists, researchers, engineers, practitioners, Corporates Scholars and Young Turks in nanotechnology to exchange information on their latest research progress and innovation with theme: Exploring new ideas and Innovations in Nanotechnology and Nanoscience
- Nanotechnology and Nanoscience conference 2018 is an optimal platform for academic communications, exchange of ideas and inspirations between specialists and scholars in the fields related to nanotechnology and materials science. This conference is an attempt to bring aspiration and inspiration in to a common fold and lay down the foundation for future research work and development. The conference will highlight all the aspects related to nanotechnology such as nanomedicine, Nanobiotechnology, Computational nanotechnology, nanomagnets, nanoplasmonics, nanomaterials etc.
- The conference covers all frontier topics in nanotechnology. The conference includes plenary lectures, Keynote lectures and invited talks, oral presentations, workshops, poster presentations from all around the globe by eminent personalities from this field.
- It's an idyllic location where dreams are converted in to reality.

# MAJOR SCIENTIFIC TRACKS

- Nanotechnology
- Nanomaterials
- Nano particles
- Material science and Engineering
- Nano biomaterials
- Nano biotechnology
- Nano medicine
- Quantum dot
- Spintronics
- Microsystems
- Nanoelectronics
- Nanochemistry
- Nanotoxicology
- Nano fabrication
- Nano sensors
- Nanobots
- Nanophotonics
- Nanotechnology products
- Nanoimprint lithography

# WHY TO ATTEND?

- These three days of the conference will be a great learning experience for all the attendees and it will be really fruitful for their research life. This is a great opportunity to share your experience, valuable knowledge, latest researches and innovations in nanotechnology with the renowned speakers across the world from the domain of nanotechnology. This is the best platform to share about your research, meet with the delegates, and learn about the new technologies and developments in the nanotechnology community.
- With members from around the world focused on learning about Nanotechnology engineering and Nano medicine this is your single best opportunity to reach the largest assemblage of participants from all over the world. Conduct demonstrations, distribute information, meet with current and potential customers, make a splash with a new product line, and receive name recognition at this 3-day event.
- World-renowned speakers, the most recent techniques, tactics, and the newest updates in fields Nanotechnology and engineering, Medical Nanotechnology, tissue engineering are hallmarks of this conference.

# Why Osaka?

- Osaka is a designated city in the Kansai region of Japan. It is the capital city of Osaka Prefecture and the largest component of the Keihanshin Metropolitan Area, the second largest metropolitan area in Japan and among the largest in the world with over 19 million inhabitants. Situated at the starting of the Yodo River on Osaka Bay, Osaka is the second largest city in Japan, serving as a major economic hub for the country.
- Osaka has a large number of wholesalers and retail shops, the stores along the arcade include commodities, clothing, and catering outlets. Osaka is known for its food, in Japan and abroad. Osaka is known for its fine sake, which is made with fresh water from the prefecture's mountains. Osaka's culinary prevalence is the result of a location that has provided access to high quality ingredients, a high population of merchants, and proximity to the ocean and waterway trade. In recent years, Osaka has started to garner more attention from foreigners with the increased popularity of cooking and dining in popular culture. The National Museum of Art is a subterranean Japanese and international art museum, housing mainly collections from the post-war era and regularly welcoming temporary exhibitions. It is the backdrop for modern movies and pop music that enjoy worldwide recognition.
