

Shining Light on Medieval Manuscripts

Prof. Andrew Beeby

Wednesday 22 February 2017 - 6pm to 7pm

What gives manuscripts their vibrant colours? Optical reflectance spectroscopy and multi-spectral imaging analyses the pigments in a non-damaging way.

Room A003, Ellison Building, University of Northumbria, NE1 8ST

For further information please contact [Facebook.com/IOPNorthEast](https://www.facebook.com/IOPNorthEast). A FREE LECTURE in conjunction with the Society of Antiquaries of Newcastle upon Tyne. Buffet: 5:30pm
