# A Celebration of Organic Chemistry 2016

Monday 19 - Tuesday 20 September 2016, Syngenta, Jealott's Hill, Berkshire, UK

## Synopsis

On Monday 19 and Tuesday 20 September 2016 influential researchers from across the UK, Europe and US will gather to present a series of lectures on the latest developments in the field of organic chemistry. This event is an excellent opportunity to hear about the latest developments, both in the arena of natural product synthesis, and also new methodology development.

The programme will also explore some of the future research opportunities available to scientists working in the field.

## Attendees

Bringing together leading researchers from the breadth of synthetic chemistry, this meeting will be of interest to those in both academia and industry who are interested in developing and applying this core technology to their research endeavors.

SCI Members can claim CPD points for attending this event.
