

UNIVERSITY OF LEEDS

Dear Colleague

Meeting of Inorganic Chemistry Recent Appointees – MICRA 2012
The University of Leeds, September 3rd-5th 2012

Thank you for expressing interest in attending MICRA 2012. This year the meeting will be held at Weetwood Hall, a four star conference centre on the outskirts of Leeds. The conference provides an excellent opportunity for young inorganic academics (usually within 5 years of their first appointment) to disseminate and discuss their research with their peers. The provisional timetable for the conference can be found at the end of this letter.

Registration and payment will be electronic, and links to the registration and general information can be found below. At this stage a title and abstract for your oral presentation or poster are not required; only the type of presentation you would like to give. We will do our best to ensure that everyone who would like to give an oral presentation is able to do so.

The registration fee is £205 for academics and £300 for industrial colleagues. The fee covers the cost of your accommodation (two nights) and all meals from lunch on Monday to lunch on Wednesday.

We look forward to welcoming you to Leeds in September!

With best wishes,

Geoff Hyett and Charlotte Willans
