

## ***FIRST CIRCULAR***

### **RSC Biomaterials Chemistry Interest Group 17<sup>th</sup> Annual Meeting**

#### **Plenary Speakers**

- Professor Chema Lagaron, CSIC, Valencia
- Professor Liam Grover, University of Birmingham
- Professor Christine Le Maitre, University of Sheffield
- Doctor Paul Roach, Loughborough University

### **RSC Biomaterials Chemistry Special Interest Group**

The RSC Biomaterials Chemistry Special Interest Group was set up in 2005 to provide a focus for groups in UK universities and industry working on the synthesis and characterisation of biomaterials. The group aims to enhance the understanding of the chemistries underlying the use of biomaterials in applications including prostheses, drug delivery and regenerative medicine.

### **RSC Biomaterials Chemistry Special Interest Group Annual Meetings**

Annual meetings of the group are designed to promote biomaterials chemistry research and development, enhance existing links, foster new collaborations and spread expertise. Meetings give participants the opportunity to present new work, discuss data and help to shape the future of research in this important and vibrant area of chemistry.

### **RSC Biomaterials Chemistry Special Interest Group conference committee:**

Chris Sammon (Sheffield Hallam University)  
Sebastian Spain (University of Sheffield)  
Ronak Janani (Sheffield Hallam University)

#### **Travel grants**

The Special Interest Group can provide travel grants to help support researchers attend the meeting

#### **Contact (Conference Chair)**
