BIOREACTORS AND GROWTH ENVIRONMENTS FOR TISSUE ENGINEERING TRAINING COURSE

Thursday 7th & Friday 8th
March 2024

North Staffordshire Medical
Institute, Stoke-on-Trent,
ST4 7NY

This interactive two-day training course is targeted at postgraduate students (MSc and PhD) and post-docs in industry and academia. Delegates are provided with a comprehensive understanding of the use of Bioreactors in Tissue Engineering. The course focuses on bioreactors and growth environments for tissue engineering, including for research, industrial and clinical use.

Workshop features:

- **'Design a Bioreactor' Group Challenge:**
*Experience in practical break-out sessions.
Prize for the winning group.*
- *Industrial and academic demonstration of Bioreactors*
- *Direct interaction with opinion leaders*

Register here:
<http://bit.ly/3FYgldB>

**Extended registration
deadline: Weds 31st January**

Two-day registration: £50

One-day registration: £35
