Successful Developments in Biopesticides Industry

The Global and European biopesticides market has grown significantly over past few years. With increased direction from the authorities and growing demand for sustainable agriculture it is certain that biopesticides market will continue to experience unprecedented growth. ACI is delighted to announce the Biopesticides Europe 2017 Conference, which will take place in Madrid, Spain on the 7-8 of June 2017.

The two day event will bring together key industry stakeholders from the biopesticides industry to discuss the challenges faced and the future opportunities. Conference will discuss the current overview of the markets, with highlights from experts on the progression of the biopesticides market and new insights and innovation of projects in pipeline.

The conference will also have insights from end-use markets giving updates on market growth drivers along with sustainable advancements in technologies and R&D projects. You're invited to join us in Madrid to meet senior representatives from leading companies for excellent networking opportunities.
