

## Royal Society of Chemistry Organic Division

### North East Regional Meeting

Quayside, University of Huddersfield, Monday 4<sup>th</sup> March 2013

**0945** Coffee

**1025** *Welcoming remarks*

Prof. Mike Page (Dean of the School of Applied Sciences,  
University of Huddersfield)

#### Session 1

**1030** RSC Natural Products Award Lecture

*Adventures in natural product synthesis*

Prof. Richard Taylor (University of York)

**1130** *Mechanistic studies of oligonucleotide synthesis*

Prof. Andy Laws (University of Huddersfield)

**1200** *Chemical tools for perturbing, profiling and perceiving proteins*

Dr. Robin Bon (University of Leeds)

**1230** Lunch and poster session

#### Session 2

**1330** *Synthesis and SAR of new imidazotetrazine prodrugs*

Dr. Richard Wheelhouse (University of Bradford)

**1400** *Chemical tools for the study of biological systems*

Dr. Jonathan Sellars (University of Durham)

**1430** *Separating actinides from lanthanides with bis 1,2,4-triazine ligands*

Dr. Frank Lewis (Northumbria University)

**1500** *Introduction of carbon isotopes into organic frameworks using iodonium salts*

Dr. Luke Dixon (Newcastle University)

**1530** Tea

#### Session 3

**1600** *Nature's nanoparticles: the bionanoscience of plant viruses*

Prof. David Evans (University of Hull)

**1630** RSC Catalysis in Organic Chemistry Award Lecture

*Photoredox catalysis in organic chemistry*

Prof. David MacMillan (Princeton University)

**1730** Wine reception

**Meeting sponsored by:**
