

ADVANCING RARE DISEASE
DRUG DISCOVERY:
**THE NEED FOR
SUCCESSFUL
COLLABORATIONS**

JOIN US ON 23 JUNE, 2016 8:00 – 17:00
Followed by a Networking Reception
Royal Veterinary College Camden Campus, London, UK

Join us for a complimentary symposium featuring keynotes from Professor Dominic J. Wells and Dr. Larry Park, who will discuss the benefits of scientific collaboration and its critical importance in the far-reaching study of rare and orphan diseases. Our agenda includes additional presentations from researchers spanning academia and industry, a poster session, a networking lunch and an evening reception.
