### Booking Confirmation

Confirmation will be issued within 3 working days upon receipt of your booking.

### Cancellation and Substitution Policy

Priority will be given to water quality management professionals, facilities managers, environmental health professionals, and those involved in technical roles related to the sampling of water. If you find you cannot attend this event or your wish to name a substitute, please let us know as soon as possible.

### Disabilities

We aim to ensure that delegates with disabilities are offered a common high level of service when attending our events. If you require any further information regarding either the event or the venue, please contact Maggi Churchouse as below.

### Disclaimer

Whilst every effort is made to run all of the events advertised, the organisers reserve the right to amend the publicised details or to

cancel the event, in which case you will be notified accordingly. All bookings are subject to availability.

### Data Protection

The personal information included in this form will be used by the BSI and Marquis and Lord only, and will not be disclosed to any third parties.

If you wish to be sent details of future similar meetings or of other BSI services, please tick this box.

### 10.00 Introduction

**Malcolm Morgan,**  
*Drinking Water Inspectorate,*  
Chair of the Steering Group

### 10.05 The role of the committee and its functions, aims and objectives

**Roger Sweeting,**  
Chair of BSI Water Quality

### 10.20 Scene setting The logic behind the need for the standard and the support received

**Malcolm Morgan**

### 10.30 Project introduction Summary of the preliminary consultation, literature review and the basis for the field trials

**Tim White,**  
Project Leader

### 11.00 Refreshment break

### 11.20 Case Study 1 Field Trial Water Utility

**Claire Stacey or Tim White**

### 11.40 Case Study 1 Field Trial Water Utility

Partner feedback

### 12.00 Case Study 2 Field Trial Environmental

**Claire Stacey or Tim White**

### 12.20 Case Study 2 Field Trial Environmental

Partner feedback

### 12.40 Lunch

### 13.40 Case Study 3 Field Trial Industrial

**Claire Stacey or Tim White**

### 14.00 Case Study 3 Field Trial Industrial

Partner feedback

### 14.20 Plenary discussion session

**Introduced by Malcolm Morgan,**  
**and facilitated by Bob Brett, BSI**

### 15.30 Summing up

**Malcolm Morgan**

### 15.45 Drinks and canapés reception

### 16.30 Close

#### Conference Timings

**Registration:** 09.30

**Conference begins:** 10.00

**Conference closes:** 16.30

*Please note, timings are provided for guidance only and may be subject to change.*

#### Drinks Reception: 15.45

Delegates are cordially invited to attend a drinks reception following the close of the conference.

## What the event will cover

The event is intended to present a background to the development of the standard and the results of field trials carried out prior to the publication of the draft for public comment.

Feedback will be elicited from those attending the event in order to supplement the documented returns from the public comment stage of the standardization process. Such feedback will form a vital step in the document development prior to publication.

## Who should attend?

The event will be of interest to:

- Water industry (including the environment agency)
- Environmental health officers
- HSE specialists
- Water management companies
- Facilities management companies
- Consulting engineers
- Geotechnical engineers
- Hydrogeological consultants
- University departments involved in field studies
- Power generators and other peripheral organizations with a water trade affinity

## Key presenters

Malcolm Morgan is a Principal Inspector with the Drinking Water Inspectorate. He has over 40 years' experience in the water industry and is the Inspectorate's expert on sampling, analysis, quality assurance and quality control.

Roger Sweeting is currently Chairman of the BSI water quality committee and is a former Chief Executive of the Freshwater Biological Association. He has been involved with national, international and European standardization for almost 20 years, including acting as a working group convenor and International Committee chairman in the biological and ecological areas.

## Additional features

- Lunch and drinks reception will be provided free of charge
- A printed copy of the draft standard will be made available to all attendees
- Event handouts
- Extended plenary discussion session
- Networking and discussion opportunity during lunch and closing reception

## What is BS 8550?

BS 8550 Guide to auditing of water quality sampling will provide independent water auditors and regulators with a tool which sets out the minimum standards of good practice to provide data users with the confidence that the information generated has been collected with the minimum of errors from sampling procedures.

This standard will serve practitioners across the whole range of water quality monitoring areas, for example:

- Wastewaters including discharges to water bodies
- Environmental monitoring
- Potable water supply
- Potable water distribution and use within buildings
- Commercial and industrial uses of water
- Power generation
- Meteorological monitoring

## Information on BSI conferences

BSI British Standards run conferences to support organizations in the understanding and use of standards. These high-level conferences enable organizations to quickly gain knowledge on the latest standards and best practice and assess the benefits for their organization or sector.
