

## Working safely with Nanomaterials: an update.

Programme outline for Joint UKNSG & RSC Meeting at Burlington House, London. Wednesday 9 September 2015

The conference registration is from 09:30-10:00: the meeting will start at 10:00 and end just after 16:00.

Presentation title	Speaker
Introduction and opening address. Guidance update.	Kären Clayton, HSE
Informing sound guidance on the safe use of NM – what can the current Nano-toxicology tell us?	Dr Craig Poland, IOM
Regulation & duties: present and future.	Steffi Friedrichs, NIA. James Wheeler, HSE.
Metrology: Latest on measurement and monitoring.	Dr Delphine Bard, HSL
Risk assessment: Hazard Banding/Control Banding. A Dutch perspective.	Dr Pieter van Broekhuizen, IVAM UvA
Controls: Devising control methodologies and new approaches.	Dr John Saunders, HSL. Dr Stuart Bellamy/ Dr Claire Weinberg, Bristol.
Panel discussion	All morning speakers
Examples of best/good practice	John Mackenzie, Thomas Swan. Sandy Reid, Promethean Particles.
Applications: Working safely with additive (3D) manufacturing: addressing knowledge gaps to develop good practice.	Dr Gareth Evans , HSL. TBC
Applications: NM in construction	Dr Wendy Jones, Loughborough.
Panel discussion	All afternoon speakers
