12th International Symposium
on Macrocyclic and
Supramolecular Chemistry
in conjunction with ISACS:
Challenges in Organic Materials
& Supramolecular Chemistry

2-6 July 2017, Cambridge, UK

Registered charity number: 207890

Theme

The 12th annual **International Symposium on Macrocyclic and Supramolecular Chemistry** will be run jointly with the Royal Society of Chemistry's biennial **ISACS: Challenges in Organic Materials & Supramolecular Chemistry** meeting, in Cambridge. Our meeting will highlight the latest advances across the breadth of supramolecular science and macrocyclic chemistry.

Confirmed Plenary Lecturers:

François Diederich
David Leigh
Jeffrey Long
Vivian Yam
Xi Zhang

ETH Zürich
University of Manchester
University of California, Berkeley
University of Hong Kong
Tsinghua University

Scientific Committee:

Jonathan Nitschke (Chair)
Harry Anderson
Phil Gale
Thorfinnur Gunnlaugsson
Michaele Hardie
David Smith
Jonathan Steed
Mike Ward

University of Cambridge
University of Oxford
University of Southampton
Trinity College Dublin
University of Leeds
University of York
Durham University
University of Sheffield

Local Committee:

Christopher Hunter
Oren Scherman

University of Cambridge
University of Cambridge
