SOLUTIONS IN CHEMISTRY

8–11 November 2022 • Sveti Martin na Muri, Croatia

INTERNATIONAL CONFERENCE ORGANISED BY THE CROATIAN CHEMICAL SOCIETY

ABOUT THE CONFERENCE

THE FOCUS OF THE CONFERENCE CAN BE DEDUCED FROM THE TWO MEANINGS OF THE WORD **SOLUTIONS** IN ITS TITLE.

The first one refers to the **solution as a phase** and comprises the experimental and computational studies of the processes taking place in **liquid media**. The second one is concerned with **general solutions to chemical problems** which are met in academia and various branches of industry. We would like to gather the scientists dealing with different fields of chemistry and to facilitate sharing of their expertise. That will be especially beneficial to the younger researchers and will strengthen the collaboration between academic institutions and the industrial companies.

TOGETHER WE ARE THE ONES FINDING NEW SOLUTIONS IN CHEMISTRY.
