

# Frontiers in Peptide Science and Drug Discovery:

**A Scientific Symposium in Honor of Professor James P. Tam**

**5 - 6 February 2020**

**Nanyang Executive Centre, Auditorium**

The symposium is jointly organized by the School of Biological Sciences and the NTU-Institute of Advanced Studies (NTU-IAS) in honor of Professor James P. Tam's outstanding research works and lifetime achievements in Peptide Science and Drug Discovery. It will cover many exciting fields of peptide and protein research including chemistry, structure and function, and applications in medicine and materials science.

## PLENARY SPEAKERS

**Tom BLUNDELL**

University of Cambridge, United Kingdom

**Shiroh FUTAKI**

Kyoto University, Japan

**Kit S. LAM**

University of California (Davis), USA

**Lei LIU**

Tsinghua University, China

**Jean MARTINEZ**

University of Montpellier, France

**Ben SHEN**

Scripps Research (Florida), USA

## CALLING FOR ABSTRACTS

We welcome all interested researchers and students to submit abstracts via this link:

<https://bit.ly/2NLbKZt>. Poster prizes will be awarded to best poster presentations.

Abstract submission **closes on 18 October 2019.**

**Jointly organized by :**

School of Biological Sciences, NTU

Institute of Advanced Studies, NTU
