RSC Theoretical and Computational Chemistry Series

About the Series
ISSN: 2041-3181
Editor-in-Chief: Jonathan Hirst, University of Nottingham, UK
Editorial Advisor: Joan-Emma Shea, University of California, Santa Barbara, USA
Dongqing Wei, Shanghai Jiatong University, China

Overview
Covering all aspects of theoretical and computational chemistry, based on both classical mechanics and on quantum theory, this Series comprises up-to-date and comprehensive references for postgraduate students and practising computational and theoretical chemists. The books cover current theoretical methods and techniques, including “do’s” and “don’ts”; and where standard techniques are not applicable and why. Each book gives an in-depth treatment of a specific aspect of theory or applications of theoretical chemistry.

New and Forthcoming Series Titles
**In Silico Medicinal Chemistry**
Nathan Brown, The Institute of Cancer Research, UK
Hardback | 500 pages | 9781782621638 | 2015 | £169.00 | $275.00

**Theory of Molecular Collisions**
Gabriel G Balint-Kurti, University of Bristol, UK
Alexander Palov, Lomonosov Moscow State University, Russia
Hardback | 400 pages | 9781849738309 | 2015 | £159.00 | $260.00

**Reaction Rate Constant Computations**
Keli Han, Dalian Institute of Chemical Physics, China
Tianshu Chu, Dalian Institute of Chemical Physics, China
Hardback | 572 pages | 9781849736503 | 2013 | £159.99 | $260.00

**Computational Quantum Chemistry**
Joseph J W McDouall, University of Manchester, UK
Hardback | 292 pages | 9781849736084 | 2013 | £114.99 | $190.00

RSC Theoretical and Computational Chemistry Series

The Royal Society of Chemistry is the world’s leading chemistry community, advancing excellence in the chemical sciences. A not-for-profit organisation with 170 years of history, we promote, support and celebrate chemistry and work to shape the future of the chemical sciences – for the benefit of science and humanity.

Book publication is a key part of our work to invest in the chemical sciences. Now approaching 1,300 titles, our collection features titles from authors around the globe and spans 46 years of research, supporting our international vision for the future.

As with all of our published material, our books portfolio is high quality and wide-ranging, covering professional reference books, specialist reports, textbooks and popular science titles.

Our series are similarly comprehensive. Enthusiastically led by an editorial board of high calibre, every new proposal is peer-reviewed by two independent experts.
