Where can I find out how to join the RSC?
To apply for QP eligibility, you must be EITHER a Chartered Chemist (CChem), OR a Fellow (FRSC) or Member (MRSC) or Associate Member (AMRSC) who qualified on the basis of a formal course of study lasting not less than three years full-time or equivalent. You can find out how to apply for membership in the Members section of the RSC website. http://www.rsc.org/membership-and-community/join/

Who should be my sponsor for my QP application?
Please refer to the ‘Guidance Notes for Applicants and Sponsors’.
You need the support of a sponsor, who must be a member of one of the Joint Professional Bodies (Royal Pharmaceutical Society, Royal Society of Biology or Royal Society of Chemistry). Your sponsor should be a practising Qualified Person who has known you professionally for the qualifying period of experience required. If this is not possible, you may use a QA line manager provided that the sponsor’s report is countersigned by the Qualified Person acting for the activities in which you are engaged. You may need more than one sponsor, for example if your experience has been gained in more than one company.
Your sponsor is vitally important in your training and application for admission to the Register. Our expectation is that your sponsor acts as a mentor and supports you throughout your training, preparation and application.

Where can I study the theoretical knowledge requirements for Qualified Persons?
You may wish to undertake personal study to satisfy the theoretical knowledge requirements of the Study Guide. A number of academic institutions and commercial companies offer courses. Taking a course is not compulsory, and the Joint Professional Bodies do not recommend or endorse particular courses. For information, there is a list of some course providers on the RSC website.

Which products and processes are eligible as my area of expertise?
Any, as long as you have a minimum of two years’ appropriate experience under a full manufacturer’s authorisation (2001/83/EC, 2001/82/EC or 2001/20/EC).

Can I apply for QP eligibility if I only have experience in API manufacture or research and development, or under a Specials Licence?
Under Article 49 of Directive 2001/83/EC, the relevant practical experience must be gained in a facility that holds a full manufacturer’s authorisation. As most API (bulk drug) and R & D do not usually require a manufacturer's authorisation, they cannot be used as areas of relevant experience to satisfy the practical experience requirements. Some APIs do require a manufacturer’s authorisation, and appropriate experience is acceptable. Experience in an establishment which has only a Specials Licence cannot contribute to the experience requirement.

Can I apply with experience of veterinary products?
You can apply for QP eligibility with appropriate experience under a manufacturer’s authorisation for veterinary products (2001/82/EC). The VMD can also appoint QPs independently.
If I have gained broad practical experience across all areas of the Study Guide, what should I put as my specialist area of expertise on the application form?
You should discuss this with your sponsor.

How much detail should I include on the application form for sections 8 and 9 (Foundation knowledge elements and Additional knowledge elements)?
You should discuss this with your sponsor.

How long will it take for my QP application to be processed?
This depends on a number of factors, including the quality of your initial application. Typically the assessment process takes about two to six months. The application is reviewed by two assessors who make the decision whether to invite you for an assessment interview.

Can I reserve an assessment slot?
You will be invited to attend a formal assessment once the application has been reviewed and approved by the assessors. You cannot reserve an assessment date in advance. Dates are offered on a first-come first-served basis. However, we try to accommodate applicants' preferences where possible.

Where will my assessment be held?
Assessments are normally held in the offices of the RSC, Royal Pharmaceutical Society or Royal Society of Biology in London. We will provide you with a map and instructions for finding us. All our buildings are accessible. If you need any special considerations relating to access or conditions in the interview room, please discuss them with your QP Officer well in advance of your assessment date.

Can I change the date of the interview, once agreed?
You should contact your QP Officer as soon as possible. If you cancel at short notice, this can result in inconvenience to other applicants and assessors. If you wish to cancel an assessment date with less than 6 weeks notice, there will be a cancellation fee of £250, unless there are extenuating circumstances.

At the QP interview, who will my assessors be?
We do not inform you prior to an assessment which assessors will be present. Assessors are selected for the Panel for their breadth and depth of knowledge and practical experience across the range of products and processes, and can assess candidates from any area of expertise. Most assessors have gained eligibility via the JPB permanent provisions route.

There may be an observer at your assessment. This may be an assessor in training, or occasionally a representative of the MHRA or VMD will observe a day of assessments. The observer is there to see the process, and will take no part in your assessment.

After the interview, can I have a copy of the questions I was asked?
We do not release lists of questions asked at QP assessments.

What is the current pass rate for Qualified Persons assessments?
In 2014, the pass rate under the permanent provisions was 70%.
What feedback will I get if I fail?

The assessors will tell you the outcome after the assessment. They will give you direct feedback, and you will have the opportunity to ask for clarification. You will also be given advice on what to do before reapplying. Typically, you will be advised to discuss the matter further with your sponsor and draw up a training plan. You will be formally advised of the assessment outcome in a letter from the RSC.

I failed my assessment and the assessors recommended that I re-apply in (for example) twelve months time. Do I need to send a second application form and fee?

Any suggested time period is a recommendation, and you should discuss with your sponsor how to find opportunities to address the concerns of the assessors. Your re-application will be assessed as a new application. You should complete a new application form to reflect your additional knowledge and practical experience. You should ensure that you explain what you and your sponsor have done to address the concerns of the assessors for your previous application, and your sponsor should provide a new sponsor’s report. The same fee is payable for each application.

Do you assess members from outside the UK?

We will assess an application for eligibility to act as a QP, whether you are resident in the UK, Europe or rest of the world. However, you must fulfil the requirements of Directives 2001/83/EC, 2001/82/EC or 2001/20/EC with respect to your qualifications and experience.

If you are not intending to act as a QP in the UK, and intend to seek nomination as a QP on a Manufacturer’s Authorisation issued by another EU Member State, you may wish first to contact the competent authority for that state (refer to the European Medicines Agency).

If you have already been named as a QP on a Manufacturer’s Authorisation in another Member State and intend to seek nomination as a QP in the UK, you should not apply to the JPB. The holder of the Manufacturer’s Authorisation should apply to the competent authority in the UK (MHRA or VMD) to add you to the authorisation as a QP.

How can I apply under the transitional provisions?

The requirements for eligibility under the transitional provisions of the Directives 2001/83/EC are described in the Guidance Notes. Since the changes in legislation relating to veterinary products in 2005, you can no longer apply under the transitional provisions of 2001/82/EC. You should contact the VMD for advice.

I am eligible to act as a QP under the transitional provisions of the Clinical Trials Directive 2001/20/EC or the Traditional Herbal Medicinal Products Directive (2004/24/EC, amending 2001/83/EC). Can I apply for an entry on the Register?

If you have been accepted by the MHRA under transitional arrangements to act as a QP for investigational medicinal products or for traditional herbal medicinal products, and have been named as a QP on an appropriate manufacturer’s authorisation, you can apply for a certificate and an entry in the Register (Category D and E applications). Certification by a professional body is not essential in these circumstances, but you are nevertheless eligible for certification and are advised, in any event, to retain details of the licence(s) on which you are named.
If you have the relevant practical experience under these manufacturer’s authorisations, you are eligible to apply under Category A. Please refer to the Guidance Notes.

**How many QPs are registered with the RSC?**
In January 2015 there were 608 QPs registered. This includes 384 registrants who qualified via the permanent provisions.

All members listed in the Register pay an annual retention fee of £50 per year. This payment is requested at the same time as your membership subscription. If you do not pay the retention fee, you will not be listed in the Register.

**How does the RSC CPD scheme work for QPs on the Register?**
The RSC has a CPD structure for members from when you join and throughout your career.

**Does the RSC publish information on QP salaries and statistics?**
The RSC produces a remuneration survey that includes information about QP salaries. You can find it in the members’ section of the RSC website.
