

Acknowledgements to be used for reproduction of RSC material in another RSC publication

Authors contributing to RSC publications (journal articles, book or book chapters) do not need to formally request permission to reproduce material contained in another RSC publication. For all cases of reproduction the correct acknowledgement should be given in the caption of the reproduced material. The acknowledgements for reproducing material in or reproduction of material from *New Journal of Chemistry* (NJC), *Photochemical & Photobiological Sciences* (PPS) or *Physical Chemistry Chemical Physics* (PCCP) are different because the RSC is publishing these journals on behalf of other organisations.

For reproduction of other RSC material in NJC the form of the acknowledgements are as follows:

- For reproduction of material from NJC:
 - Reproduced from Ref. XX.
- For reproduction of material from PCCP:
 - Reproduced from Ref. XX with permission from the PCCP Owner Societies.
- For reproduction of material from PPS:
 - Reproduced from Ref. XX with permission from the European Society for Photobiology, the European Photochemistry Association, and the Royal Society of Chemistry.
- For reproduction of material from all other RSC journals and books:
 - Reproduced from Ref. XX with permission from The Royal Society of Chemistry.

For reproduction of other RSC material in PCCP the form of the acknowledgements are as follows:

- For reproduction of material from NJC:
 - Reproduced from Ref. XX with permission from the Centre National de la Recherche Scientifique (CNRS) and The Royal Society of Chemistry.
- For reproduction of material from PCCP:

For reproduction of other RSC material in PPS the form of the acknowledgements are as follows:

- For reproduction of material from NJC:
 - Reproduced from Ref. XX with permission from the Centre National de la Recherche Scientifique (CNRS) and The Royal Society of Chemistry.

If the material has been adapted instead of reproduced from the original RSC publication “Reproduced from” can be substituted with “Adapted from”.

In all cases the Ref. XX is the XXth reference in the list of references.
