Permissions Confirmation Form

When a figure, table or diagram ('material') is to be reproduced in an RSC book in essentially the same form in which it was originally published, or with only minimal alteration, then it is the author's responsibility to obtain written permission from the original publisher to reproduce that material. You must supply information about this material on the accompanying sheet and submit the sheet with this form, together with copies of the publisher's "permission granted" correspondence.

If you intend to reproduce material in an RSC book which you have previously published in an RSC book or journal, then written permission is not required. If you wish to reproduce another author's material then you must obtain permission from the publisher (even if the publisher is the RSC).

Book title: _____

Typescript/chapter title: _____

Author name: _____

Please tick either **I** or **II** below then sign and date the form.

I All figures, tables and diagrams in my typescript are my own original work and have not previously been published (other than in RSC journals and books).

No permission forms are necessary for my typescript.

II The figures, tables and diagrams detailed on the sheet attached have previously been published and permission to reproduce these has been obtained.

Please note: we cannot publish your typescript until you have completed and returned this form.

Signed: _____ Date: _____

The figures, tables and diagrams detailed on this sheet have previously been published and permission to reproduce these has been obtained.

Number of Figure/Diagram/Table in your typescript	Original Source and Publisher	Permission included? Yes or No (if no, please provide an explanation of why not)
