

**THE ROYAL SOCIETY OF CHEMISTRY  
LICENCE TO PUBLISH**

**Title**

Arrangements have been made with The Royal Society of Chemistry ("the RSC") for the publication of the above proceedings. The RSC will hold the copyright for the collective work ("the Work") of which your contribution (paper and 50-250 word summary) ("the Contribution") will form a part. Assignment of the copyright in the Contribution is not required, but in order to avoid later misunderstanding over such matters we need the copyright owner ("the Owner") to agree to the points below.

If the Author(s) is the copyright owner of the Contribution, then where used below "the Owner" means the Author(s). If the Author(s) does not own the copyright in the Contribution, please state who the Owner is (giving name and address) and state why the Author(s) does not own the copyright in the Contribution (e.g. the Author(s) wrote the Contribution in the course of employment by the Owner).

**Name and Address of Owner**

1. The Owner grants to the RSC a non-exclusive licence to edit, adapt, reproduce and publish the Contribution in the Work of the above title (including all renewals and reprints), in all formats, in all media and by all means (whether now existing or in future devised).
2. The Owner warrants that:
  - (a) the Contribution is the original work of the Author(s) and not copied (in whole or in part) from any other work or matter or, if the Contribution includes copyright works of persons other than the Author(s), the Contribution is substantially the original work of the Author(s) and all necessary written permissions have been obtained for use of such copyright works of the relevant copyright owner(s) (including, for example, any illustration, table or extended quotation taken from any publication that is not the Author(s) copyright); and
  - (b) the exercise of the rights granted to the RSC by this Licence to Publish will not infringe the copyright of any person or result in any breach of confidentiality or the breach of any contract or of any law.
3. Notwithstanding anything to the contrary contained in this Licence to Publish:
  - (a) copyright in the Contribution will be reserved to the Crown in respect of any parts of the Contribution as were written in the course of employment by the British Government; and
  - (b) the Licence to Publish shall take effect only to the extent permitted by the laws of the United States of America if and to the extent that the Contribution or any part of the Contribution was written in the course of employment by the United States Government.
4. This Licence to Publish shall be governed in all respects by English law.

If the above terms are satisfactory to you, please sign your name where indicated below and return one signed copy of this form to: Rosalind Shattock, Commissioning Assistant, Royal Society of Chemistry, Thomas Graham House, Science Park, Milton Road, Cambridge CB4 0WF, UK

Signed by the Owner or by someone duly authorised to sign for the Owner.
