Royal Society of Chemistry
Faraday Division

Guidance for Faraday Division Council Members

1. Attend as many Faraday Division Council meetings as you can.
2. Encourage colleagues and students to join Faraday Division, particularly younger members.
3. Promote physical chemistry in its full breadth and raise its profile.
4. Take on specific duties and deputise for the Faraday Division President as requested.
5. Provide input into RSC policy submissions/consultations which are relevant to members of the physical chemistry community.
6. Keep an eye on issues and send agenda items to the Secretary.
7. Engage with other Divisions/Forums/RSC Groups in respect of issues around physical chemistry, together with other parts of the RSC as appropriate.
8. Encourage the nomination of new members of Council, encouraging diversity in age, gender, ethnicity and subject expertise.
9. Encourage the nomination of suitable candidates for awards. Encourage diversity. Some awards may have membership conditions.
10. Encourage participation in Faraday Discussions, symposia, regional meetings and RSC Group meetings and come yourself.
11. Help initiate, plan and organise conferences and meetings.
