

**Annual General Meeting of the  
Mössbauer Spectroscopy Discussion Group.**

Dear Member,

The AGM for the MSDG will take place this year at the London Centre for Nanotechnology on the 12<sup>th</sup> of September 2006 at 11am. If you think that you will be attending could you please let me know so that I can ensure that we get the correct sized room. At the meeting we will discuss what is proposed in relationship to the European Mössbauer Spectroscopy Meeting. The RSC has also asked all of the special interest groups for their input on the IUPAC Congress and General Assembly which will take place in 2009.

I have attached an agenda and directions to the LCN.

Yours sincerely,

Dr George Fern.
