NB - Make sure you add this email address, rscpublishing@rsc.org to your safe email list so you can continue to receive your Librarian Newsletter.

Dear Colleague

Welcome to the latest bumper issue of the Royal Society of Chemistry (RSC) Publishing newsletter for librarians and information specialists – RSC Notes. I would like to introduce myself, my name is Louise Peck and I have recently joined RSC in a new role as the Library Marketing Specialist, dedicated to the library and information specialist market. As well as other communications, I will be sending this newsletter out and would very much like to hear your feedback about what is of interest.

If you feel this newsletter would be of interest to any colleagues, please forward on and ask them to sign up online to [Librarian News](#).

= = = = =

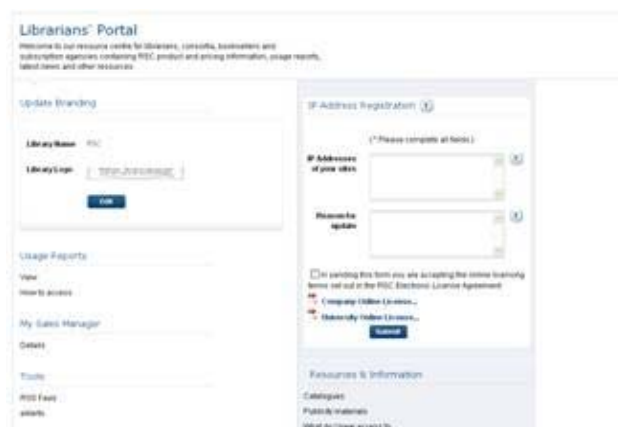

In the recent special RSC Notes issue, we sent you information about the NEW RSC Publishing^{beta} platform. As this platform is still at 'Beta' stage, this gives you the opportunity to feedback your views on this new platform for searching your subscriptions online and what migration changes you will need to make.

What is the Librarian Portal on RSC Publishing^{beta}?

The new Librarian Portal enables you to create an account, personalise with IP addresses and branding, access usage statistics and see your current subscriptions.

[Register, access and feedback](#) your comments – *click on the top right hand link – 'Feedback' on the Librarian Portal home page*

Find out more information about RSC Publishing^{beta} from our [FAQs](#) or [online video](#)

Migration - we need your help

As we will be moving delivery of our electronic journals and books from our current website to the new RSC Publishing platform, we will need to migrate our customers and would therefore like to ask you what changes you will need to make so we can provide comprehensive migration guidelines. Please help us to do this by completing the online survey below; your feedback is very important to us. We will also be sending out a separate email in regards to migration.

It takes 2-3 minutes to complete our [migration survey](#)

Interested in becoming a tester of RSC Publishing^{beta}?

If so, please [email](#) us, or register your details on the online survey and we will contact you.

=====

ChemSpider wins Best Practices Award

The Royal Society of Chemistry's ChemSpider platform has won a 2010 Bio-IT World Best Practices Award for contributions to community chemistry. ChemSpider provides access to millions of chemical structures and integration to a multitude of other online services. ChemSpider is fast becoming the richest single source of structure-based chemistry information. **Better still, it's freely available for anyone to use.**

For more information go to the [ChemSpider website](#)

=====

Freely Available Access Journals

When RSC publishes a new journal, we give online access to the first two volumes, a useful tool for libraries, information specialists, students, academics and researchers. This will be set up by IP address.

- *Analytical Methods*
- *Chemical Science*
- *Integrative Biology*
- *MedChemComm*
- *Metallomics*
- *Nanoscale*
- *Polymer Chemistry*

New eBooks and Books for 2010

eBooks

RSC Publishing offers a range of eBook purchase packages available to our libraries and information specialists. We have published 11 eBooks so far in 2010 with more to come.

Our four RSC eBook Collection packages available include:

1. archive (1968 – 2009)
2. current year (2010)
3. archive plus current year (1968 – 2010)
4. subject collections (2000 - 2010)

For more information on all the latest, high quality chemical science information eBooks, [email us](#) quoting marketing reference code **EM 1D 10** or go to our eBooks [website](#)

Please note there is an annual maintenance fee applicable to our eBook packages.

Books

We have an active publishing programme planned for the year ahead with over 80 titles scheduled for publication this year, including new titles from the RSC Energy Environment Series, the RSC Green Chemistry Series and the recently launched RSC Drug Discovery series. We have now added 9 new print book titles in 2010.

For more information on print books, contact your book seller, [email us](#) quoting marketing reference code **EM 1D 10** or go to our [Books website](#)

=====

Events

Here are some of the events that we will be exhibiting at over the coming months:

- Dawson Day – May, France
- Inforum – May, Czech Republic
- iExpo – June, France
- ICSTI 2010 Summer Conference – June, Finland
- SLA – June, USA

Please do come and see us on our stands to talk about your needs and how we can help. View our [interactive map](#), which lists our events on the left hand side of the screen.

Feedback and Advisory Group

Here at RSC Publishing, we pride ourselves on the quality offerings of our products due to our authors and global content and always want to hear your comments. Please contact me and let me know.

We are also looking to create a RSC Library Advisory Group to give feedback to research questions helping to provide us with relevant industry feedback. Are you interested in joining this group? Please [contact me](#) to express your interest in joining.

=====

Thank you for your time.

Kind regards

Louise
