## Changes to Free Access Content

All RSC Publishing customers and those on free trials with registered IP addresses no longer need to request to receive our free access journals - this is now provided to you automatically.

This means your students, academics, scientists, researchers and professionals can now access free content available on the RSC Publishing Platform when going through your institution or organisation authentication.

Free access content includes:

- Any articles that are part of a special free access promotion
- All content of RSC journals published from 1997 to 2007
- A sample chapter from each book in the RSC eBook Collection
- All content of our newest journals for the first two volumes. For 2011 this includes:
  1. [Catalysis Science & Technology](#)
  2. [Chemical Science](#)
  3. [Food & Function](#)
  4. [MedChemComm](#)
  5. [Polymer Chemistry](#)

If you are not an RSC Publishing customer, are not part of a free trial to our content or don't have your IP address registered with us, request access to this free content  
Go to [www.rsc.org/freeaccess](http://www.rsc.org/freeaccess)

## Four Journals Coming Off Free Access

Our four RSC journals that will be available for 2011 subscription after their free access period ends in 2010 are:

- [Analytical Methods](#)
- [Integrative Biology](#)
- [Metallomics](#)
- [Nanoscale](#)

To review usage of these titles or discuss potential subscriptions, please contact us and we will happily help.

## RSC Journals Changing Frequency

Two RSC journals are changing frequency in 2011 from 12 to 24 issues:

o [Analyst](#) – publishes leading edge interdisciplinary research that presents a significant advance in fundamental theory or practice of the chemical, physical and biological sciences from an analytical

perspective

- o [CrystEngComm](#) – the journal for innovative research covering all aspects of crystal engineering
