

Dear Colleague

Welcome to the latest issue of RSC Notes, keeping you up-to-date with what's happening in RSC Publishing. In this issue:

- New prices and impact factors
- New journal for 2010
- ChemSpider
- RSC eBook Collection

You are welcome to [contact us](#) if you have any comments, questions or feedback.
Kind regards

Valerie Simpson
Product Marketing Manager

PS Please pass this on to any colleagues who you think would be interested - they can also sign up to receive RSC Notes via our new [E-alerts registration page](#) .

2010 prices announced

Subscription prices for RSC journals, magazines, databases and packages in 2010 are now available. Sensitive to the current economic climate, we have kept any price rises at a moderate level, while maintaining a substantial increase in the volume of content we are publishing year on year. For full details, please [download the file](#) of 2010 prices. Prices for the [RSC Journals Archive](#) and the [RSC eBook Collection](#) are also available.

Impact Factors – RSC leads the way in chemistry

The recent publication of the 2008 impact factors, calculated by ISI, once again brought great news for authors and readers of RSC journals. Highlights are:

- RSC journals increased by an average of 8.2%
- The average Impact Factor of the RSC portfolio now stands at 4.7, equal to that of the ACS collection
- RSC journals feature in the top ten rankings in 6 of the 7 core chemistry categories as listed on ISI
- Of the top 100 chemistry journals, ranked by Impact Factor, 15 are from RSC Publishing

You can read the full announcement [here](#).

New journal for 2010

[Polymer Chemistry](#) - encompassing all aspects of synthetic and biological macromolecules, and related emerging areas. As with all our recently announced new journals, free online access is available to registered institutions, allowing you to fully evaluate the content before you consider taking out a subscription or license for your organisation. [Register for free access](#) for your institution today.

Please note: Package A and A+ subscribers will automatically receive access and do not need to register.

Along came ChemSpider

Recently acquired by RSC, ChemSpider is the richest single source of structure-based chemistry information, providing free and fast access to more than 20 million chemical structures and integration to a multitude of other online services. [Read more](#) about the plans for the future.

RSC eBook Collection

Research shows that eBook usage is highest during the first term of the new academic year – an ideal time for your users to explore the RSC eBook Collection!

With over 900 titles spanning 40 years of chemical science publishing, users can quickly find the content they want using the on-site Google search facility. Every one of the 20,000+ chapters is available as a DOI-registered PDF file, allowing fast retrieval and low-bandwidth usage.

With over 150 textbooks and paperbacks, there is plenty of material for undergraduates; postgraduates and academics will find the latest developments in their field through the wide selection of monographs, handbooks and conference proceedings – with new titles added to the collection throughout the year.
