

Dear Colleague

Welcome to the latest issue of RSC Notes, keeping you up-to-date with what's happening in RSC Publishing. In this issue:

- 2009 subscriptions
- New journals – sign up for free access today
- Access and usage
- RSC Prospect User guide

You are welcome to [contact us](#) if you have any comments, questions or feedback.

Kind regards

Valerie Simpson
Product Marketing Manager

PS Please pass this on to any colleagues who you think would be interested - they can also [sign up](#) to receive their own copy. If you feel that you are not the appropriate person to receive these newsletters, please [let us know](#).

2009 Subscriptions

Renewal notices for 2009 subscriptions to RSC Publishing content have now been sent out. (Please note: there may be a delay with information reaching you if you subscribe through a subscription agent or other intermediary.) To ensure uninterrupted access, make sure you renew your subscriptions before the end of the year. If you have any questions regarding new or existing subscriptions, please [contact us](#)

Have you registered yet?

Our three newest journals are all offered free online to registered institutions. [Energy & Environmental Science](#) has received very positive feedback from the community since the first issue was published online in July. If you would like free online access to the entire 2008 and 2009 content, and haven't registered yet, fill in the [online form](#) today. [Integrative Biology](#) and [Metallomics](#), will both publish their first issue in January. Registration is now open for free online institutional access to the entire 2009 and 2010 content. (Package A and A+ customers with IP address registered will automatically receive access).

Access and usage

We know how important it is for you to have COUNTER-compliant online usage reports. If you have not yet registered to receive monthly usage reports for RSC journals, you can find out how, and access the Online form, at <http://www.rsc.org/Publishing/librarians/Counter/index.asp>

We know that it can be difficult for your users to keep track of the online resources that are available, so we've introduced a special web page to help them find out exactly what RSC content they can access from their IP address. Called [Your RSC Subscriptions](#), it lists all products to which your organisation currently has access, including the RSC Journals Archive and the RSC eBook collection.

We've also collected information about RSC content that is available free – including: research articles that are free for a limited time; news articles in magazines; and free chapters from the RSC eBook Collection. [More ...](#)

RSC Prospect User Guide

If you and your readers haven't yet discovered the power of RSC Prospect enhanced HTML journal articles, we've got the ideal place for you to start! The new user-friendly guide demonstrates all of the special features available to you. Each step is illustrated with screenshots taken from actual enhanced articles and a glossary of terms to help you get to grips with new terminology. [Download your copy today](#)
