Chemistry Education Research and Practice

January 2006
ISSN 1109-4028

Volume 7, Issue no 1
Pages 1-48

Contents

Papers

Effectiveness of multimedia laboratory instruction..... 1-12

Andrzej Burewicz and Nikodem Miranowicz

Programmed instruction revisited: a study on teaching stereochemistry13-21

N. Izzet Kurbanoglu, Yavuz Taskesenligil and Mustafa Sozbilir

Students' understanding of matter: the effect of reasoning ability and grade level .22-31

Ayhan Yilmaz and Elvan Alp

High school students' understanding of titrations and related acid-base phenomena32-45

Keith Sheppard

Letter

Textbook inflation: thirty-five years of Brown's general chemistry textbook46-48

Todd M. Hamilton

April 2006
ISSN 1109-4028

Volume 7, Issue no 2
Pages 49-159

This issue is in celebration of the work of the Centre for Science Education,
University of Glasgow, under the leadership of Professor Alex Johnstone.

Guest editor: Alex Johnstone

Contents

Professor Alex H Johnstone

Review

Chemical education research in Glasgow in perspective..... 49-63

Alex H Johnstone

Papers

[Cognitive factors that can potentially affect pupils' test performance](#)64-83

Eleni Danili and Norman Reid

[Concept mapping in problem based learning: a cautionary tale](#).....84-95

Alex H Johnstone and Kevin H Otis

[The development of creative problem solving in chemistry](#)96-113

Colin Wood

[Explicit teaching of problem categorisation and a preliminary study of its effect on student performance – the case of problems in colligative properties of ideal solutions](#).....114-130

Vasileios Zikovelis and Georgios Tsaparlis

[Fostering creative problem solving in chemistry through group work](#).....131-140

Liberato Cardellini

[Research into practice: visualisation of the molecular world using animations](#) ...141-159

Roy Tasker and Rebecca Dalton

July 2006

ISSN 1109-4028

Volume 7, Issue no 3

Pages 160-202

Contents

Papers

[Student recognition and construction of quality chemistry essay responses](#).....160-169

Diane M. Bunce and Jessica R. VandenPlas*

[Contrasting the expectations for student understanding of chemistry with levels achieved: a brief case-study of student nurses](#).....170-184

Kathleen Scalise, Jennifer Claesgens, Mark Wilson and Angelica Stacy

[Open learning support for foundation chemistry as taught to health science students](#).....185-194

Peter Hall and Wynne Evans

[Chemistry in sport: context-based e-learning in chemistry](#)195-202

Nicholas M. Potter and Tina L. Overton

Contents

Papers

The use of scientific literacy taxonomy for assessing the development of chemical literacy among high-school students.....203-225

Yael Shwartz, Ruth Ben-Zvi and Avi Hofstein

Some aspects of students' understanding of a representational model of the particulate nature of matter in chemistry in three different countries.....226-239

Gilbert O. M. Onwu and Elize Randall

Practitioner development in organic chemistry: how graduate students conceptualize organic acids240-247

Gautam Bhattacharyya

Assessing the educational effectiveness of a CAL tutorial. Structure and molecular dynamics in biology; Part 1: water and molecular interactions248-265

Claude Erny, Dominique Bouvier, Gilles Bloch, Christine Laemmel and Anne-Marie Leseney

Simulation of laboratory assignments to support students' learning of introductory inorganic chemistry.....266-279

Jens Josephsen and Agnieszka Kosminska Kristensen

The challenge to develop CFC (chlorofluorocarbon) replacements: a problem based learning case study in green chemistry280-287

Alan Heaton, Simon Hodgson, Tina Overton and Richard Powell

Peter G. Nelson288-289

Letter: Definition of 'element'
