<b>Chapter 1</b>	<b>Mysteries of the Emotional Rollercoaster</b>	<b>1</b>
1	A Day in the Life of Bianca and Michael	1
2	Why Our Brain Produces “Butterflies”	2
2.1	Mapping the Brain is Like Decoding the Genome	5
2.2	The Universe Inside Bianca’s and Michael’s Heads	6
2.3	Think Before You Act! – Order Refused, Says the Spinal Cord	10
3	Michael’s Brain, a Dream Super Computer	12
3.1	Is Our Brain a Parallel Computer?	12
3.2	Right or Left? Our Split Brain has to Make a Decision	14
3.3	Kissers Turn Right (Probably)	15
3.4	Can Thoughts be Measured?	17
3.5	A Formula 1 Racing Car in Michael’s Brain	18
4	The Cell as a Chemical Reactor	19
4.1	The First Encounter With Bianca: Michael’s Ion Channels “Remember”	20
4.2	Michael has Localised Bianca: The “Chemistry of the Moment”	20
4.3	Michael’s and Bianca’s Emotions are Mainly Happening at the Front of the Right Hemisphere	23
4.4	“Squids” Made of Niobium as a Compass of our Thoughts	24
5	Outbursts of Emotion Set Molecular “Submarines” Going	25
5.1	Michael’s Love Triggers an Avalanche of Signals in the Brain	27
6	Neurotransmitters – Guardians of Emotions and Sleep	28
6.1	Is Michael’s Brain Squandering Energy?	30
6.2	Bianca Likes Glucose – Her Brain Too	31

<b>Chapter 2</b>	<b>Two Networks of Nerves</b>	33
1	Hugs and Heartbeats	33
1.1	Control Over Sex and Senses	33
1.2	Team Work	34
1.3	No Erection without the Cooperation of Vegetative and Somatic System	35
<b>Chapter 3</b>	<b>Signals of Love</b>	36
1	Love at First Sight?	36
1.1	Shy Men Avoid Eye Contact—Women Look for it	37
2	Anatomy of a Flirt	38
3	The American Kama Sutra: 103 Pulling Tactics	39
<b>Chapter 4</b>	<b>Tied Up with a Double Helix</b>	41
1	All in Our Genes?	41
2	From Primordial Soup to DNA	42
3	Chemistry: The Seed of Life, Mind, and Emotions	44
4	Genes are Like Men	45
4.1	Why does Michael have Dark Hair? Sugar and Phosphate Molecules Provide the Answer	47
5	Inherited Genes: A Surprise Present	47
<b>Chapter 5</b>	<b>Hormones – The Body’s Snailmail</b>	49
1	Blame it on the Adrenaline	49
1.1	Adrenaline and Co.: the Secret Rulers of Our Emotional World	49
1.2	Hormone Deficiency in the Brain can Trigger a Rollercoaster of Emotions	52
1.3	Checks and Balances	54
1.4	Exultation and Melancholy	55
<b>Chapter 6</b>	<b>Estrogen and Testosterone – Driving Our Emotional Lives</b>	60
1	The Secret Entanglement of Body and Soul	60
2	Bianca Knows the Story but can’t Fight her Feelings	60
2.1	During Puberty, the Countdown of the Body’s Chemistry Begins	62
2.2	Men are Much Less Complicated, or are They?	62
2.3	Testosterone – A Versatile Hormone	64
3	Love is the Best Medicine	66
3.1	Domestic Disputes Weaken the Immune System	67

<b>Chapter 7</b>	<b>Oxytocin – the “Amuse-Gueule” Among Hormones</b>	68
1	When Michael Caressed Bianca, her “Chemical Factory” Produced Oxytocin	68
1.1	Keen on Cuddling after Orgasm? It’s all in the Chemistry!	69
1.2	From Moscow with Love: Oxytocin and the Pavlov Effect	70
1.3	Why Women Pick up the Phone When They are Stressed	72
1.4	Small Molecule, Big Effect	73
1.5	Men and Women, Be Tolerant!	75
1.6	Social Behaviour Benefits, Too.	76
1.7	Oxytocin and Vasopressin – Chemical Compass Needles for Partnership and Fidelity	76
<b>Chapter 8</b>	<b>Dopamine – Casanova’s Double-Edged “Secret Weapon”</b>	78
1	A Hormone that makes us Euphoric	78
1.1	Excess Amounts of Dopamine can Lead to Pathological Addiction to Love	79
1.2	Male Rats Show a Pronounced “Coolidge Effect”	79
<b>Chapter 9</b>	<b>Serotonin – the Happy Messenger in the Blood</b>	82
1	A Moody Messenger	82
1.1	Sometimes Michael Craves Chocolate	83
1.2	Pathological Love – Linked to Serotonin Deficiency	83
1.3	Microparanoia – The Love Sickness	84
<b>Chapter 10</b>	<b>Phenylethylamine – the Stuff that Makes the Soul Jubilate</b>	85
1	Welcome to the Rollercoaster of Emotions	85
1.1	The Elevator to Cloud 9 Smells of Fish	85
<b>Chapter 11</b>	<b>The Chemistry of Birth Control</b>	87
1	How about the Pill?	87
1.1	Birth Control – Almost a Never Ending Story	87
1.2	Just Crouch Down and have a Good Sneeze	88
1.3	A Big Leap for the Biology of Small Eggs	89
1.4	Why is There No Pill for the Male?	92
<b>Chapter 12</b>	<b>Menopause: When the Hormone Supply Falters</b>	93
1	Will You Always Love Me?	93
1.1	Is Hormone Replacement Therapy the Way Out?	94

1.2	Drugs from Nature's Treasure Trove	95
1.3	Not only Women	96
<b>Chapter 13</b>	<b>Endogenous Opiates – the Chemistry of Euphoria</b>	<b>100</b>
1	It's not only the Adrenaline that Gets Michael and Bianca Started	100
1.1	Is Our Brain a Poppy Flower?	101
1.2	Researchers Go the Whole Hog	102
1.3	Long Time no See?	103
2	Endorphins – An Emergency Centre of the Body?	105
2.1	Mice Turn into Little Cowards	107
2.2	Faith is the Best Medicine – Endorphins and The Placebo Effect	107
3	Endorphins in Pain Research	108
3.1	Opiates Linked to Near Death Experience?	110
3.2	Hugging the Pain Away	110
3.3	Immediately After Birth, Mother and Baby are full of Opiates	111
3.4	Breastfeeding Makes Babies High	111
4	Naloxone – Opponent of the Opiates	112
4.1	Without Endorphins, The World of Intensive Emotions Remains Locked	113
5	Natural Opiates	113
6	Synthetic Opioids	114
6.1	Synthetic Opiates were Meant to Knock Out Terrorists	115
7	Are Our Opiate Receptors a Blessing or a Curse of Nature?	116
<b>Chapter 14</b>	<b>Chemistry for the Eye of the Beholder – Lipsticks through the Ages</b>	<b>117</b>
1	Bianca's Red Lips get Michael all Excited	117
1.1	In the Ice Age, Ochre was all the Rage	117
1.2	A Magic Wand of Cosmetics – Thanks to Chemistry	118
<b>Chapter 15</b>	<b>Secret Scents of Seduction</b>	<b>120</b>
1	Come on let's Go	120
1.1	From the "Dialogue with the Gods" to Modern Perfume	120
1.2	Top Notes, Middle Notes, and Base Notes: An Excursion into the Chemistry of Fragrances	123

1.3	A Frenchman had a Nose for it	124
1.4	Animal Instincts	125
1.5	Take a Deep Breath – How Our Sense of Smell Works	125
1.6	Is the Gradual Loss of Our Sense of Smell an Error of Evolution?	126
1.7	Show Your True Colours and I Tell You Which Fragrance You Prefer	127
<b>Chapter 16 Pheromones – Words in the Dialogue of Fragrances</b>		<b>130</b>
1	Do Pheromones make Humans Horny, Too?	131
1.1	A Relic from Earlier Days of Evolution?	133
1.2	The Truffle Pig in us Decides Whether We Get on with Each Other	135
1.3	Men are Smellier Than Women	135
1.4	Napoleon to His Wife: “Don’t Wash, Will Arrive in Three Days.”	137
1.5	Copulins – the “Chemical Weapons” of Women	137
1.6	Artificial Pheromones in Perfumes make Men Keen to Cuddle	138
1.7	“I Don’t Like Your Smell, Because Our Genes are Too Similar”	140
<b>Chapter 17 The ABC of Aphrodisiacs</b>		<b>142</b>
1	A Little Help from My Friends	142
1.1	E is for Eggs	143
1.2	G is for Gelée Royal and Ginseng	143
1.3	L is for Licorice	145
1.4	O is for Oysters	145
1.5	P is for Papaverine Injections	146
1.6	R is for Rhinoceros Horn	148
1.7	S is for Spanish Fly	149
1.8	T is for Tiririca	150
1.9	V is for Vitamin E	151
1.10	Y is for yohimbine	152
<b>Chapter 18 Viagra &amp; Co</b>		<b>153</b>
1	A Growing Problem	153
1.1	The Discovery of Viagra	154
1.2	The Penis as a Book-Keeper	154
1.3	Viagra – Just What the Doctor Ordered?	155
1.4	Potent Drugs Fight Impotence	156

<b>Chapter 19 Epilogue: Returning from the Airport</b>	157
1 The Important Thing is That The Chemistry Works – The Rest Remains a Miracle	157
<b>Further Reading</b>	159
