

gridlocks – can you unlock the grid?

Born-Haber cycle: MgCl_2

The Born-Haber cycle can be divided into stages like the ones in the table below. Start by filling in the table using:

stage	standard enthalpy change(s)	equation(s)
elements to gaseous atoms	$\Delta H_{\text{at}}^{\ominus} \text{Mg} \text{ \& \; } 2\Delta H_{\text{at}}^{\ominus} \text{Cl}$	$\text{Mg}(\text{s}) \rightarrow \text{Mg}(\text{g})$ $\text{Cl}_2(\text{g}) \rightarrow 2\text{Cl}(\text{g})$
atoms to positive ions	$1^{\text{st}} + 2^{\text{nd}}$ IE of Mg	
atoms to negative ions	$2 \times 1^{\text{st}}$ EA of Cl	$2\text{Cl}(\text{g}) + 2\text{e}^{-} \rightarrow 2\text{Cl}^{-}(\text{g})$
gaseous ions to solid lattice	lattice enthalpy (formation)	
elements to compound	$\Delta H_{\text{f}}^{\ominus} \text{MgCl}_2$	

Gridlock 1

Each row, column and 2×2 box contains information about the first four stages listed. Use your problem solving skills and the answers in the table above to fill in the blank boxes.

stage		standard enthalpy change(s)	
atoms to positive ions			$\Delta H_{\text{at}}^{\ominus} \text{Mg} \text{ \& \; } 2\Delta H_{\text{at}}^{\ominus} \text{Cl}$
			gaseous ions to solid lattice
$2 \times 1^{\text{st}}$ EA of Cl			
standard enthalpy change(s)		stage	

gridlocks – can you unlock the grid?

Gridlock 2

Each row, column and 2 x 2 box contains information about each of the last four stages listed.

stage		equations	
atoms to positive ions			$\text{Mg(s)} + \text{Cl}_2\text{(g)} \rightarrow \text{MgCl}_2\text{(s)}$
	$2\text{Cl(g)} + 2\text{e}^- \rightarrow 2\text{Cl}^-\text{(g)}$		lattice enthalpy (formation)
equations		standard enthalpy change(s)	

Gridlock 3

You will need to work out which stages are in this gridlock.

stage		equations	
	elements to gaseous atoms		$\text{Mg}^{2+}\text{(g)} + 2\text{Cl}^-\text{(g)} \rightarrow \text{MgCl}_2\text{(s)}$
			$\text{Mg(s)} \rightarrow \text{Mg(g)}$ $\text{Cl}_2\text{(g)} \rightarrow 2\text{Cl(g)}$
$\text{Mg(g)} \rightarrow \text{Mg}^{2+}\text{(g)} + 2\text{e}^-$			$\Delta H_f^\ominus \text{MgCl}_2$
equations		standard enthalpy change(s)
